The Nexus Between ICT and Liturgy Emmanuel Chinedu Anagwo, 2023 In recent years there has been a groundswell of interest on how Information and Communication Technology ICT can best be harnessed to improve the efficiency and effectiveness of the Catholic liturgy Accordingly the book discusses the future of worship at a time of digital explosion in the Christian Churches as expounded through the lenses of the Second Vatican Council's interdisciplinary document titled *Inter Mirifica* 13 While the nexus between ICT and Liturgy may seem obvious the deep connections and the many possibilities for the 21st century e worship are yet to be significantly explored When not handled well they will lead to cataclysmic destruction of liturgical heritage and patrimony Nonetheless exploring ICT for e worship the book advocates for adherence to guidelines in liturgical celebrations Hence the book discloses the meaning theology types prospects uses and abuses in ICT for digital worship This book will make a vital contribution not only to scholarship in liturgical studies in Africa

but also as a catalyst towards a simplified consolidation to the practice of Christian worship in the world today

Encyclopedia of Christian Education George Thomas Kurian, Mark A. Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church. As a result, Christian education remains one of the largest and oldest continuously functioning educational systems in the world, comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries. In *The Encyclopedia of Christian Education*, contributors explore the many facets of Christian education in terms of its impact on curriculum, literacy, teacher training, outcomes, and professional standards. This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe, illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy, home schooling, Sunday schools, women's education, graded schools, compulsory education of the deaf and blind, and kindergarten. With an editorial advisory board of more than 30 distinguished scholars and five consulting editors, *The Encyclopedia of Christian Education* contains more than 1,200 entries by 400 contributors from 75 countries. These volumes cover a vast range of topics from Christian education history, spanning from the church's founding through the Middle Ages to the modern day; denominational and institutional profiles; intellectual traditions in Christian education; biblical and theological frameworks; curricula; missions; adolescent and higher education; theological training; and Christian pedagogy. Biographies of distinguished Christian educators. This work is ideal for scholars of both the history of Christianity and education, as well as researchers and students of contemporary Christianity and modern religious education. **American Book Publishing Record Cumulative 1998** R

R Bowker Publishing, 1999-03 **Any Body There?** Craig Michael Mueller, 2017-07-21 Anybody there? We may wonder as we watch people engage with their smart phones while being oblivious to what is going on around them. Anybody there is the question facing the church as it wrestles with declining religious affiliation. Craig Mueller considers this contemporary context and offers a response based in an incarnational spirituality, accentuating the body and finding expression in corporate multisensory liturgy. Mueller creatively weaves together topics from our digital lives with personal and congregational stories and theological, liturgical, and spiritual reflections. Concepts such as virtuality, the analog, 24/7 connectivity, access, design, and GPS are juxtaposed with themes of embodiment, mortality, sabbath, mystery, beauty, and vocation. Drawing on his experience as a pastor to millennials, his studies in liturgical theology, and his work on the effects of technology on daily life, Mueller proposes that corporate worship is an antidote to the distraction, fragmentation, and spiritual hunger in society today. As humans continue to merge with machines, participation in the Sunday liturgy reminds us of what it means to be human: a deeper connection to our bodies and the earth, and a clear sense of purpose and mission for our everyday lives.
