EPREUVE DE REFLEXION « ESSAI ».

Cette question accompagne un texte littéraire ou un texte philosophique ,
l'épreuve dure 2h.

Une question de réflexion vous est posée et vous devez y apporter une réponse à partir du texte, mais sans vous limiter à celui-ci.

Compétences évaluées :

- L'analyse conceptuelle de la question posée et le problème soulevé
- La construction d'une authentique réflexion personnelle: il ne faut pas réciter un cours mais mobiliser les connaissances acquises pendant l'année pour les adapter à la spécificité du sujet.
- La formulation d'une réponse précise.
- L'argumentation à travers des idées ordonnées et approfondies.
- La réflexion doit se reprendre et se transformer à partir d'une position initiale.
- La clarté de la langue: le vocabulaire doit être bien choisi.

Voici un extrait des recommandations du ministère :

« Apparenté à la « question de réflexion », l'« essai » est un exercice d'argumentation ordonnée à la fois plus bref et plus libre que la dissertation. L'important est qu'il rende compte d'une pensée personnelle, progressive et ordonnée, appuyée sur des références et des exemples précis. Quelle qu'en soit la forme, elle permet aux candidats de développer leur réponse à la question posée sans se perdre en conjectures sur le sens de cette dernière. Cette pensée en première personne leur permet également de développer une réflexion adossée à ce que disent les œuvres et les textes et à ce qu'ils permettent de comprendre des réalités du monde. Le propos progresse librement, mais avec ordre, selon les contraintes logiques identifiées par son auteur »

Première étape (au brouillon)

-étudier la question qui vous est posée. Analyser les termes du sujet (notamment aussi les termes proches , qui permettent de mieux saisir le sens précis de la question posée : plus votre analyse est précise plus votre essai sera rigoureux.

Comment On Ecrit Lhistoire Essai Dpistmologie:

Comment on écrit l'histoire Paul Veyne, 2016 *Comment on écrit l'histoire* Paul Veyne, 1971 **COMMENT ON ECRIT L'HISTOIRE; ESSAI D'EPISTEMOLOGIE** Paul Veyne, 1971 , *Decolonizing Roman Imperialism* Danielle Hyeonah Lambert, 2024-10-17 The framework of Romanization developed by Haverfield in 1905 that Romans civilized their imperial subjects particularly those in the barbarian western provinces remains hegemonic notwithstanding multiple attempts at revisionism It has been reasserted rejected or modified but still frames the debate Decolonizing Roman Imperialism investigates how the postcolonial challenge to decolonize the production of historical knowledge has motivated Roman scholars to question the paradigm of Romanization to review its historiography to seek fresh approaches and to rewrite it The book provides an intellectual genealogy of the debate valuable for every student of the Roman Empire and of Roman Britain and invites them to rethink the legacy of ancient Roman imperialism *Herodotus: Histories Book I* Herodotus, 2022-09-15 An indispensable tool for teaching and reading Herodotus first book in Greek discussing both language and literary interpretation **Herodotus: Histories Book I** Carolyn Dewald, Rosaria Vignolo Munson, 2022-09-15 In the Histories which could loosely be translated as Investigations or Researches Herodotus tells how the Persian Empire began grew and then met defeat in Greece in his parents generation Book 1 begins that story It introduces both the world in which the Persian imperial war machine began to operate and then expanded and Herodotus own procedures in undertaking the ambitious task he has set himself This edition helps intermediate and advanced students to read the book in the original Greek and will also be of interest to advanced scholars The Commentary provides information about dialect grammatical forms syntax and other properties of his language In addition the Introduction and the Commentary engage in literary interpretation and explore Herodotus value as a historian his immense curiosity and the attention he devotes to the customs beliefs concrete realities and myths of other cultures *The Sociologist and the Historian* Pierre Bourdieu, Roger Chartier, 2015-06-04 In 1988 the renowned sociologist Pierre Bourdieu and the leading historian Roger Chartier met for a series of lively discussions that were broadcast on French public radio Published here for the first time these conversations are an accessible and engaging introduction to the work of these two great thinkers who discuss their work and explore the similarities and differences between their disciplines with the clarity and frankness of the spoken word Bourdieu and Chartier discuss some of the core themes of Bourdieu s work such as his theory of fields his notions of habitus and symbolic power and his account of the relation between structures and individuals and they examine the relevance of these ideas to the study of historical events and processes They also discuss at length Bourdieu s work on culture and aesthetics including his work on Flaubert and Manet and his analyses of the formation of the literary and artistic fields Reflecting on the differences between sociology and history Bourdieu and Chartier observe that while history deals with the past sociology is dealing with living subjects who are often confronted with discourses that speak about them and therefore it disrupts

disconcerts and encounters resistance in ways that few other disciplines do This unique dialogue between two great figures is a testimony to the richness of Bourdieu's thought and its enduring relevance for the humanities and social sciences today

Plenitude of Power Robert C. Figueira, 2016-04-22 I study power so Robert Louis Benson described his work as a scholar of medieval history This volume unites papers by a number of his students dealing with matters central to Benson's historical interests ecclesiastical institutions and administration emperorship and papacy canon law political ideology and historiography The justification and exercise of political power is considered in two chapters that look at how the hagiography of a late Roman military saint Maurice was harnessed in the 11th century to the discussion of the power exercised by both emperor and pope and how both pious purpose and political pretext animated the Hohenstaufen emperors suppression of heresy Three subsequent chapters focus on the Church a study of the legal commentaries that taught that the authority to bind and loose in a specific ecclesiastical matter could be determined by the opinions of the elders of the province an argument that Innocent III's administration of the Roman church represented a model for the ordering of all Christian society and an inquiry into the doctrinal formation of the territorial principle in the exercise of jurisdiction by papal legates The late Middle Ages provides the focus for two additional studies namely an exploration of the issues of power and authority in the charitable institutions of Cologne in the 13th 14th centuries and the argument that the current desire for universal standards of governmental conduct in the area of basic human rights hearkens back to natural law theory as outlined in the 15th century by Nicholas of Cusa Two historiographical studies round out the volume an estimation of modern research regarding the political theology of late antiquity and a reflection on Benson's own contribution to historical scholarship Together these papers both epitomize and further develop Benson's distinctive approach to the study of the Middle Ages while themselves making their own important contribution
