Common Ground Islam Christianity And Religious Pluralism:

Common Ground Paul L. Heck, 2009-09-04 Christian Muslim interaction is a reality today in all corners of the globe but while many celebrate the commonality of these traditions significant differences remain If these religions cannot be easily reconciled can we perhaps view them through a single albeit refractive lens This is the approach Paul Heck takes in *Common Ground* To undertake a study of religious pluralism as a theological and social reality and to approach the two religions in tandem as part of a broader discussion on the nature of the good society Rather than compare Christianity and Islam as two species of faith religious pluralism offers a prism through which a society as a whole secular and religious alike can consider its core beliefs and values Christianity and Islam are not merely identities that designate particular communities but reference points that all can comprehend and discuss knowledgeably This analysis of how Islam and Christianity understand theology ethics and politics specifically democracy and human rights offers a way for that discussion to move forward

Religious Pluralism in Christian and Islamic Philosophy Adnan Aslan, 2013-01-11 The philosophy of religion and theology are related to the culture in which they have developed These disciplines provide a source of values and vision to the cultures of which they are part while at the same time they are delimited and defined by their cultures This book compares the ideas of two contemporary philosophers John Hick and Seyyed Hossein Nasr on the issues of religion religions the concept of the ultimate reality and the notion of sacred knowledge On a broader level it compares two world views the one formed by Western Christian culture which is religious in intention but secular in essence the other Islamic formed through the assimilation of traditional wisdom which is turned against the norms of secular culture and is thus religious both in intention and essence

Interreligious Learning Michael Barnes, 2012 Demonstrates how learning to engage with different religious traditions can deepen and reinvigorate one's own faith

Friendship in Islamic Ethics and World Politics Mohammad Jafar Amir Mahallati, 2019-11-20 Based on a decade of direct diplomatic engagement with the United Nations a decade of teaching on international relations and another decade of research and teaching on Islamic and comparative peace studies this book offers a friendship related academic framework that examines shared moral concepts philosophical paradigms and political experiences that can develop and expand multidisciplinary conversations between the Christian West and the Muslim East By advancing multicultural and interreligious discourses on friendship this book helps promote actual friendships among diverse cultures and peoples This is not a monologue It provides a model of conversations among scholars and political actors who come from diverse international and interreligious backgrounds The word Islamic should not mislead the reader to suspect that this edited volume delves only into religious discourses Rather it provides a forum for conversations within and between religious and philosophical perspectives It sparks friendship conversations thematically and through disciplinary and cultural diversity The result of the work of many prominent international scholars and diplomats over many years it conveys at least one message clearly friendship matters for not only our happiness but also for our

Leo, 2024-06-28 This book examines the world of religious conservatism in Christianity and Islam through a comparison of two eighteenth century traditionalist icons Jonathan Edwards and Mu ammad Ibn Abd al Wahh b Spanning the globe from America to Arabia this book explores the major themes in the lives and works of these most unlikely of bedfellows the Reverend and the Shaykh In many ways Edwards and Ibn Abd al Wahh b are about as far apart as two figures could possibly be Without minimizing their very real differences however this comparative study finds numerous parallels that beckon even the most conservative of Christians and Muslims to take a second look at their own faith as well as the faith of the other The numerous surprising congruences in the worlds of the Reverend and the Shaykh as well as in their conceptions of God humanity and the faith of the other suggest that we stand much to gain from a reassessment of long held views that could lead to wholly new patterns of engagement With implications in diverse fields such as politics law philosophy theology history warfare and anthropology this book unearths striking parallels in Edwards and Ibn Abd al Wahh b that have heretofore gone unnoticed or largely ignored **The Qur'an in Christian-Muslim Dialogue** Corrie Block, 2013-10-08 Offering an analysis of Christian Muslim dialogue across four centuries this book highlights those voices of ecumenical tone which have more often used the Qur an for drawing the two faiths together rather than pushing them apart and amplifies the voice of the Qur an itself Finding that there is tremendous ecumenical ground between Christianity and Islam in the voices of their own scholars this book ranges from a period of declining ecumenism during the first three centuries of Islam to a period of resurging ecumenism during the most recent century until now Among the ecumenical voices in the Christian Muslim dialogue this book points out that the Qur an itself is possibly the strongest of those voices These findings are cause for and evidence of hope for the Christian Muslim relationship that although agreement may never be reached dialogue has led at times to very real mutual understanding and appreciation of the religious other Providing a tool for those pursuing understanding and mutual appreciation between the Islamic and Christian faiths this book will be of interest to scholars and students of Islam the Qur an and the history of Christian Muslim relations
