Origins of Nautical Archaeology Under Water John M. McManamon,2016-12-09 Sometime around 1446 A D Cardinal Prospero Colonna commissioned engineer Battista Alberti to raise two immense Roman vessels from the bottom of the lago di Nemi just south of Rome By that time local fishermen had been fouling their nets and occasionally recovering stray objects from the sunken ships for 800 years Having no idea of the size of the objects he was attempting to recover Alberti failed For most of the next 500 years various attempts were made to recover the vessels Finally in 1928 Mussolini ordered the draining of the lake to remove the vessels and place them on the lake shore In 1944 the ships burned in a fire that was generally blamed on the Germans John M McManamon connects these attempts at underwater archaeology with the Renaissance interest in reconstructing the past in order to affect the present Nautical and marine archaeologists as well as students and scholars of Renaissance history and historiography will appreciate this masterfully researched and gracefully written work

Roman Crucifixion and the Death of Jesus Woodrow Michael Kroll,2023-01-04 The Roman practice of crucifixion was so abhorrent that even the Romans didn t talk about it Yet their government practiced crucifixion for centuries What drew the crowds to the killing fields to watch people die such torturous deaths What enabled those elite soldiers in the Roman killing squads to crucify their victims with the precision and skill of a hospital surgeon These and many other questions are answered in this book Of the thousands of people who fell victim to the most pitiable of deaths one is much better known than all the others Jesus of Nazareth Most Christians know something of Jesus crucifixion because of the Gospel narratives but to enhance our appreciation of the Savior s death we benefit by knowing more about Roman crucifixion Roman Crucifixion and the Death of Jesus provides a deeper understanding of how where and why someone could be crucified and helps to inform us of Jesus crucifixion Armed with a better grasp of Roman crucifixion we can more fully appreciate Jesus

A Cultural History of Plants in Antiquity Annette

Giesecke, 2023-12-14 A Cultural History of Plants in Antiquity covers the period from 10 000 BCE to 500 CE. This period witnessed the transition from hunter-gatherer subsistence to the practice of agriculture in Mesopotamia and elsewhere and culminated in the fall of the Roman Empire, the end of the Han Dynasty in China, the rise of Byzantium and the first flowering of Mayan civilization. Human uses for and understanding of plants drove cultural evolution and were inextricably bound to all aspects of cultural practice. The growth of botanical knowledge was fundamental to the development of agriculture, technology, medicine and science as well as to the birth of cities, the rise of religions and mythologies and the creation of works of literature and art. The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today. The themes covered in each volume are plants as staple foods, plants as luxury foods, trade and exploration, plant technology and science, plants and medicine, plants in culture, plants as natural ornaments, the representation of plants. Annette Giesecke is Professor of Classics at the University of Delaware, USA. Volume 1 in the Cultural History of Plants set. General Editors: Annette Giesecke, University of Delaware, USA and David Mabberley, University of Oxford, UK.
