Catch A Falling Star Living With Alzheimers:

Catch a Falling Star Betty Baker Spohr, Jean Valens Bullard, 1995 For those who have a spouse other relative or friend afflicted with alzheimers this book will help them to understand and cope with the strange world into which their patient or loved one gradually sinks The text pencil drawings and guidelines will ease the frustration caused by the unexpected Caregivers elderly spouses and even older guidelines will ease the frustration caused by the unexpected Caregivers elderly spouses and even older grandchildren relate easily to the illustrated text This book aids readers to foresee and better comprehend the constantly changing bizarre behavior patterns of Alzheimers **Alzheimer's Disease Memoirs** Pramod K Nayar, 2021-12-06 This book examines writings by people living with Alzheimer's Disease and their caregivers Its focus areas include the construction of the self in the face of diminishing linguistic and cognitive abilities the stigmatization of ageing the various narrative strategies that these texts often collaboratively employ the health activism and advocacy generated via a biosociality and the ethics of care It examines the disease writing genre about a condition that ravages the ability to use language It serves as a literary examination of the work done in this area through a critical reading of the memoirs of those with AD and caregivers and a healthy dose of literary theory The book is a valuable resource for those interested in literary and critical theory and researchers in the field of ageing dementia studies **The Poetics and Politics of Alzheimer's Disease Life-Writing** Martina Zimmermann, 2017-06-07 This book is open access under a CC BY 4.0 license This is the first book length exploration of the thoughts and experiences expressed by dementia patients in published narratives over the last thirty years It contrasts third person caregiver and first person patient accounts from different languages and a range of media focusing on the poetical and political questions these narratives raise what images do narrators appropriate what narrative plot do they adapt and how do they draw on established strategies of life writing It also analyses how these accounts engage with the culturally dominant Alzheimer's narrative that centres on dependence and vulnerability and addresses how they relate to discourses of gender and aging Linking literary scholarship to the medico scientific understanding of dementia as a neurodegenerative condition this book argues that first patients articulations must be made central to dementia discourse and second committed alleviation of caregiver burden through social support systems and altered healthcare policies requires significantly altered views about aging dementia and Alzheimer's patients **The Diseased Brain and the Failing Mind** Martina Zimmermann, 2020-06-25 This book is available as open access through the Bloomsbury Open programme and is available on www.bloomsburycollections.com It is funded by The Wellcome Trust The Diseased Brain and the Failing Mind charts changing cultural understandings of dementia and Alzheimer's disease in scientific and cultural texts across the 20th Century Reading a range of texts from the US UK Europe and Japan the book examines how the language of dementia regarding the loss of identity loss of agency loss of self and life is rooted in scientific discourse and expressed in popular and literary texts Following changing scientific understandings of dementia the book also

demonstrates how cultural expressions of the experience and dementia have fed back into the way medical institutions have treated dementia patients The book includes a glossary of scientific terms for non specialist readers Thinking About Dementia Annette Leibing, Lawrence Cohen, 2006-02-15 Cultural responses to most illnesses differ dementia is no exception These responses together with a society's attitudes toward its elderly population affect the frequency of dementia related diagnoses and the nature of treatment Bringing together essays by nineteen respected scholars this unique volume approaches the subject from a variety of angles exploring the historical psychological and philosophical implications of dementia Based on solid ethnographic fieldwork the essays employ a cross cultural perspective and focus on questions of age mind voice self loss temporality memory and affect Taken together the essays make four important and interrelated contributions to our understanding of the mental status of the elderly First cross cultural data show the extent to which the aging process while biologically influenced is also very much culturally constructed Second detailed ethnographic reports raise questions about the behavioral criteria used by health care professionals and laymen for defining the elderly as demented Third case studies show how a diagnosis affects a patient's treatment in both clinical and familial settings Finally the collection highlights the gap that separates current biological understandings of aging from its cultural meanings As Alzheimer's disease and other forms of dementia continue to command an ever increasing amount of attention in medicine and psychology this book will be essential reading for anthropologists social scientists and health care professionals

Dementia and Literature Tess Maginess, 2017-08-09 Dementia is an urgent global concern often termed a widespread problem tragedy or burden and a subject best addressed by health and social policy and practice However creative writers can offer powerful and imaginative insights into the experience of dementia across cultures and over time This cross disciplinary volume explores how engaging with dementia through its myriad literary representations can help to deepen and humanise attitudes to people living with the condition Offering and interrogating a wide array of perspectives about how dementia might be imagined this book allows us to see how different ways of being can inflect one another By drawing on the lived experience of the individual unique person and their loved ones literature can contribute to a deeper and more compassionate and more liberating attitude to a phenomenon that is both natural and unnatural Novels plays and stories reveal a rich panoply of responses ranging from the tragic to the comic allowing us to understand that people with dementia often offer us models of humour courage and resilience and carers can also embody a range of responses from rigidity to compassion Dementia and Literature problematises the subject of dementia encouraging us all to question our own hegemonies critically and creatively Drawing on literary studies cultural studies education clinical psychology psychiatry nursing and gerontology this book is a fascinating contribution to the emerging area of the medical and health humanities The book will be of interest to those living with dementia and their caregivers as well as to the academic community and policy makers **American Book Publishing Record**, 1995 *Reconstructing Illness* Anne Hunsaker Hawkins, 1999

Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins s sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader Reconstructing Illness demonstrates that only when we hear both the doctor s and the patient s voice will we have a medicine that is truly human

Rehabilitation Nursing ,1998 **Psychiatric Mental Health Nursing** Noreen Cavan Frisch, Lawrence E. Frisch, 2006 Building knowledge and fostering empathy simultaneously no other book captures nursing care for patients with psychiatric disorders quite like Psychiatric Mental Health Nursing The distinctive approach of this text is unrivaled as it utilizes excerpts from literature movie clips and classic art to convey actual experiences of clients with psychiatric disorders The scientific basis of disease is presented for a thorough collection of conditions and disorder types such as anxiety depression mania and schizophrenia as well as therapeutic and pharmacological interventions for the people experiencing them Special consideration is also provided for the suicidal client the client who abuses chemical substances and survivors of violence or abuse Comprehensive in scope and unique in delivery this title presents the reality of psychiatric nursing care
