Catchy Phrases For 2014:

Political Catchphrases and Contemporary History Suman Gupta, 2022-06-23 Political Catchphrases and Contemporary History presents an historical account of the period 2001-2020 by focusing on the shifting connotations of certain political catchphrases and words. These allow for a linked up narrative covering areas such as politics and policy, business and investing, austerity and inequality, identity, climate change, crowd protests, flexible working and online education. Key junctures are 9/11, the 2002 dot com crash and the 2007-2008 financial crisis, the Occupy movements of 2011-2012, China's economic policy from 2014 onwards and the COVID-19 outbreak in 2020. Half the book is devoted to the unusually pervasive usage of the catchphrase 'new normal'. Chapters are also given to 'we are the 99%' and the catchwords 'austerity' and 'resilience'. Case studies of these catchphrases and words occupy much of the book. The final chapter makes conceptual inferences and proposes both a theory of political catchphrases and a distinctive approach to contemporary history. The source materials are predominantly from the UK and USA but refer naturally to issues of global moment.

The 2019 Parliamentary Elections in India Subrata K. Mitra, Rekha Saxena, Pampa Mukherjee, 2022-06-16. This book presents a comprehensive overview of India's electoral democracy and political system. It provides an in-depth analysis of the 2019 parliamentary elections to explore three crucial facts of India's political life: the legitimacy of political competition as the only basis of power, elections as the only legitimate basis of political competition, and political parties as the only legitimate agency to conduct political competition. The book argues that the vitality and resilience of India's electoral democracy remain high owing to large mass participation in elections that are competitive and relatively free and fair. The volume includes key theoretical, empirical and comparative perspectives on parties and elections from experts and covers all major political parties of India along with the performance of many representative regional parties. It discusses themes such as elections and party competition in India, ideology, interest, religion and gender as they affect social mobilisation and political transaction, economic and political change and multiparty democracy, the dynamics of the Muslim vote, fluctuating electoral fortunes and electoral campaigns and role of social media. This book will be an essential read for scholars and researchers of political science, political sociology, election studies, Indian politics, South Asian politics and South Asian studies.
