Human Diseases from Wildlife Michael R. Conover, Rosanna M. Vail, 2014-09-18 Human Diseases from Wildlife presents information on the most prevalent and serious zoonotic diseases in the US and Canada some of which have been national headline news like anthrax influenza and West Nile virus Diseases that are caused by pathogens with the ability to infect both humans and animals are known as zoonotic diseases which litera **Human-Wildlife Interactions** Michael R. Conover, Denise O. Conover, 2022-01-05 This book won the 2023 The Wildlife Society Publication Award in the authored book category Human wildlife interactions increase exponentially as more and more humans and wildlife crowd into the same limited space Such interactions often become conflicts when wildlife threaten human health and safety well being or the food supply This second edition of Human Wildlife Interactions From Conflict to Coexistence provides a comprehensive review of the severity of these problems and the methods used to resolve clashes between humans and wildlife During his forty year career as a wildlife professor and scientist Dr Michael Conover founder of journal Human Wildlife Interactions has become a recognized leader of the scientific field of human wildlife interactions In this book he presents the range of methods for wildlife damage management including employing lethal methods distributing supplemental food changing the behavior of either humans or wildlife and excluding or repelling wildlife Backed by numerous case studies and informative side bars the book documents resolutions to specific human wildlife conflicts throughout the literature Containing full color illustrations throughout the second edition of Human Wildlife Interactions From Conflict to Coexistence provides authoritative coverage and depth of both theoretical and practical information It serves as an invaluable resource for students researchers and professional wildlife managers Disclaimer Figure 7 7 b on page 251 was incorrectly attributed in previous printings The photographer of figure 7 7 b is Cynthia Herrick **Animals and Their People** Anna Barcz, Dorota Łagodzka, 2018-10-16 Animals and Their People Connecting East and West in Cultural Animal Studies edited by Anna Barcz and Dorota Łagodzka provides a zoocentric insight into philosophical artistic and literary problems in Western Anglo American and Central Eastern European context The contributors go beyond treating humans as the sole object of research and comprehension and focus primarily on non human animals This book results from intellectual exchange between Polish and foreign researchers and highlights cultural perspective as an exciting language of animal representation Animals and Their People aims to bridge the gap between Anglo American and Central European human animal studies *Dominion over Wildlife?* Stephen M. Vantassel, 2009-04-01 For centuries Christians believed that God granted humanity dominion over the animal kingdom meaning that we had a moral right to kill manage and eat animals including wildlife Recently however environmental and animal rights activists have assaulted this traditional perspective They argue that dominion as expressed in meat eating and hunting has resulted in species extinction and environmental degradation Christian Animal Rights CAR activists suggest that the church must reevaluate its traditional beliefs in light of the fact that God s original creation was free of human on animal

violence God they argue did not want man's dominion to be expressed through trapping killing and eating of animals These violent activities only came about after the Fall as God condescended to our hardness of heart CAR activists point to Christ's sacrificial work of reconciliation as a model for modern Christian behavior as Christ sacrificed for us we should avoid eating meat and hunting as ways we can participate in Christ's non violent work of reconciling creation to himself In this book Stephen Vantassel investigates the biblical ethical and scientific arguments employed by the CAR movement concerning human wildlife relations In this regard the book engages in practical theology by addressing several important questions How should Christians treat our wildlife neighbors Has the Church been wrong in its understanding of human dominion Does God want Christians to avoid hunting trapping fishing and adopt a vegetarian lifestyle This book provides answers to these questions by detailing a theology the author calls Shepherdism

**Diseases from Wildlife** Michael R. Conover, Rosanna M. Vail, 2014-09-18 Human Diseases from Wildlife presents information on the most prevalent and serious zoonotic diseases in the US and Canada some of which have been national headline news like anthrax influenza and West Nile virus Diseases that are caused by pathogens with the ability to infect both humans and animals are known as zoonotic diseases which literally means disease from animals The issue of human wildlife disease interactions is a growing concern as humans continue to interface with wildlife People who handle wildlife including field workers wildlife professionals trappers and hunters want to know about potential diseases risks and how to protect themselves from disease This book was written because many people are uninformed about zoonotic diseases This lack of information causes some people to have a heightened fear of zoonotic diseases preventing them from enjoying wildlife or spending time outdoors Other people needlessly expose themselves to disease by neglecting simple precautions This book includes information on bacterial spirochetal rickettsial and viral diseases as well as macroparasites and emerging zoonotic diseases More than two dozen diseases are covered including rabies tularemia baylisascariasis salmonellosis leprosy Lyme disease Rocky Mountain spotted fever and swimmer's itch Each chapter contains the history of the disease symptoms in humans medical treatment transmission of pathogens to humans the role of wildlife as vectors and methods to minimize risk The diseases people can contract from wild animals can be both threatening and fascinating and the book includes interesting information to make it more enjoyable to read
