Class and Campus Life Elizabeth M. Lee, 2016-05-10 In 2015 the New York Times reported The bright children of janitors and nail salon workers bus drivers and fast food cooks may not have grown up with the edifying vacations museum excursions daily doses of NPR and prep schools that groom Ivy applicants but they are coveted candidates for elite campuses What happens to academically talented but economically challenged first gen students when they arrive on campus Class markers aren't always visible from

a distance but socioeconomic differences permeate campus life and the inner experiences of students in real and sometimes unexpected ways In *Class and Campus Life* Elizabeth M Lee shows how class differences are enacted and negotiated by students faculty and administrators at an elite liberal arts college for women located in the Northeast Using material from two years of fieldwork and more than 140 interviews with students faculty administrators and alumnae at the pseudonymous Linden College Lee adds depth to our understanding of inequality in higher education An essential part of her analysis is to illuminate the ways in which the students and the college's practices interact rather than evaluating them separately as seemingly unrelated spheres She also analyzes underlying moral judgments brought to light through cultural connotations of merit hard work by individuals and making it on your own that permeate American higher education Using students own descriptions and understandings of their experiences to illustrate the complexity of these issues Lee shows how the lived experience of socioeconomic difference is often defined in moral as well as economic terms and that tensions often unspoken undermine students senses of belonging *Geographies of Campus Inequality* Janel E. Benson, Elizabeth M. Lee, 2020

empirical examinations of the ways that these students negotiate experiences shaped by structural inequities in higher education institutions and the pathways that lead to them This volume provides insight into the dilemmas that arise from the transformation of students class identities in pursuit of upward mobility as well as their quest for community and a sense of belonging on college campuses that have not been historically designed for them While centering first generation status this collection also critically engages the ways in which other dimensions of social identity intersect to inform students educational experiences in relation to dynamics of race ethnicity socioeconomic class gender and immigration Additionally this book takes a holistic approach by exploring the ways in which first generation college students are influenced by and engage with their families and communities of origin as they undertake their educational careers [The Wiley International Handbook of Service-Learning for Social Justice](#) Darren E. these students In this bracing expos Anthony Jack shows that many students struggles continue long after they ve settled in their dorms Admission they quickly learn is not the same as acceptance This powerfully argued book documents how university policies and campus culture can exacerbate preexisting inequalities and reveals why some students are harder hit than others
