Contemporary Stylistics:

Contemporary Stylistics Marina Lambrou, Peter Stockwell, 2007-12-14 Contemporary Stylistics presents a comprehensive survey of the current state of the integrated study of language and literature. Written by internationally renowned researchers in stylistics, this volume of twenty chapters provides a showcase for the range of approaches and practices which form modern stylistics, from cognitive poetics to corpus linguistics, from explorations of mind, style and spoken discourse in narrative to the workings of viewpoint in lyric poetry, from word meanings to the meanings and emotions of literary worlds and more. Each chapter is introduced and set in context by a key figure in stylistics. The book represents the best of current stylistics practice, including the traditions, roots and rigour of the discipline. This one-volume reference will be invaluable to students and researchers in stylistics. Contemporary Stylistics Alison Gibbons, 2018-02-01

Contemporary Stylistics introduces the theoretical principles and practical frameworks of stylistics and cognitive poetics, supplying the practical skills to analyse your own responses to literary texts. *Contemporary Stylistics* Marina Lambrou, Peter Stockwell, 2010-04-21

Stylistic Manipulation of the Reader in Contemporary Fiction Sandrine Sorlin, 2019-12-12 This book focuses on how readers can be manipulated during their experience of reading fictional texts and how they are incited to perceive, process and interpret certain textual patterns. Offering fine-grained stylistic analysis of diverse genres including crime fiction, short stories, poetry and novels, the book deciphers various linguistic, pragmatic and multimodal techniques. These are skilfully used by authors to achieve specific effects through a subtle manipulation of deixis, metalepsis, dialogue, metaphors, endings, inferences or rhetorical narratorial and typographical control. Exploring contemporary texts such as *The French Lieutenant's Woman*, *The Remains of the Day* and *We Need to Talk About Kevin*, chapters delve into how readers are pragmatically positioned or cognitively misdirected as the author guides their attention and influences their judgment. They also show how readers' responses can conversely bring about a certain form of manipulation as readers challenge the positions the texts invite them to occupy. Corpus-Driven Approach to Stylistic Analysis of a Lexical Richness Curve Khalid Shakir Hussein, Ali Hussein Abdul-Ameer, 2017-02-14 Scientific Study from the year 2017 in the subject English Language and Literature Studies. Literature. Thi Qar University College of Arts. Language: English. Abstract: This book is an attempt to explore the lexical richness of certain well-known literary texts using a statistical gauge called lexical richness curve. The analysis conducted throughout this scientific study is corpus-based and a recent version of WordSmith Tools 0.7 is used to process the basic statistical frequencies of types and tokens. The study depends basically on a wordlist tool used to analyze digital samples of six novels written by three grand novelists: Virginia Woolf's *The Waves* and *To the Lighthouse*; James Joyce's *Ulysses* and *A Portrait of the Artist as a Young Man*; and William Faulkner's *Light in August* and *The Sound and the Fury*. Fifteen samples are taken randomly from each novel with 1000 tokens intervals, so the overall samples used in the study are 90 samples. Then

each sample is statistically analyzed to find about its lexical richness The number of the types distinct vocabulary words and the number of the tokens words are counted for each sample The ratio of types and tokens are presented visually by using Microsoft Office Excel diagrams This will facilitate a rigorous process of figuring out the lexical richness of each novel It is quite evident that Joyce's Ulysses holds the highest rate of lexical richness while Faulkner's Light in August reserves the lowest lexical richness curve As for Woolf her novels are located somewhere in the middle with an exceptional approaching observed in The Waves to Joyce's Ulysses in some textual samples Moreover it is an evident feature that the type token curves for Joyce's A Portrait of the Artist as a Young Man and Woolf's To the Lighthouse are virtually reciprocal indicating an exceptional similarity in their lexical repertoires

Language and Literature. A Corpus Stylistic Approach to Charles Dickens, 2013-04-22 Seminar paper from the year 2010 in the subject English Language and Literature Studies Literature grade 1.3 University of Osnabrück language English abstract Early Corpus linguistics and stylistics began with Chomsky's approach to language He explicitly stated that there are three levels of adequacy upon which grammatical and linguistic theories can be evaluated observational adequacy descriptive adequacy and explanatory adequacy This revolution through Chomsky founded the basis for corpus based analysis a method which uses adequate examples to give introspection how a language works and how it is used by different authors Corpus based analysis offers new insights into studies of language and new computer tools and software make it possible to get access to a wide range of electronic corpora In my research paper I will carry out a corpus stylistic approach to the language of 19th century author Charles Dickens This means that I will basically focus on his special register and investigate his use of particular clusters as recurrent combinations of words used in his corpus Furthermore I will focus on A Christmas Carol 1843 as an exemplifying novel of how language patterns are used by Dickens This masterpiece has the smallest number of words of all his novels namely 28 541 which renders it a special challenge to analyse Moreover it hasn't been analysed by many corpus linguists before which puts A Christmas Carol in the light of a nearly unexamined piece of art ready to explore My thesis which will be developed in the following chapters would be that Dickens's novels especially A Christmas Carol provide a unit of meaning their own worlds of text in which Dickens's unique style can be sifted out providing recurring clusters which offer a corpus work based on effective comparison To enter the deep analysis to provide a well worked out research paper I will start with a description and findings of corpus analysis Secondly I will spend a chapter on three four and five word clusters in the Dickens Corpus and especially A Christmas Carol with particular focus on five word clusters Moreover I will introduce the five categories of labels body part speech time and place and as if clusters and examine these categories in Dickens's Great Expectations 1861 and A Christmas Carol as two examples of a contrastive analysis I will finish my work by concluding my previous discoveries
