Building Teacher Capacity in English Language Teaching in Vietnam Van Canh Le, Hoa Thi Mai Nguyen, Thi Thuy Minh Nguyen, Roger Barnard, 2019-08-06 This timely volume opens a window on issues related to English language education in Vietnam The authors consider that teacher quality is the key factor to be considered if the national English language curriculum outcomes are to be achievable Aiming to shed light on key issues recently observed in the Vietnamese landscape of English language education it examines the complexity of the institutionalization of the standardized English proficiency policy which has been in force since 2008 That policy uses the Common European Framework of References for Languages CEFR as the model to set the standards and levels of proficiency for teachers learners and state employees The book presents both the theoretical and practical aspects of the standardization movement in English language education The contents comprise a series of extended research based chapters written by experts of

language in education policy and planning in and about Vietnam from a range of perspectives including teachers English language curriculum developers teacher educators and researchers The rich coverage of the book includes current discussion on English language education in Vietnam ranging from policy to practice making it highly relevant to English teachers teacher educators and scholars in Vietnam and worldwide who aspire to broaden their horizons and professionalism

Current Topics in Children's Learning and Cognition Heidi Kloos,Bradley Morris,Joseph Amaral,2012-11-14 As a whole the essays in this book address theoretical and empirical issues related to children s learning and cognition The first essay titled Learning in Cognitive Niches treats the process of sense making on a theoretical level discussing the complexity of factors that give rise to children s learning It is followed by an essay titled Using the Dynamics of a Person Context System to Describe Children s Understanding of Air Pressure that applies ideas from complexity science and dynamics systems theory to children s learning about science The next four essays summarize and synthesize already published findings in an effort to go beyond individual viewpoints and present a more nuanced picture of children s sense making In particular two of these summaries Preschoolers Learning Science Myth or Reality and The Emergence of Scientific Reasoning focus on children s ability to make sense of their physical environment The essay Cognition and the Child Witness Understanding the Impact of Cognitive Development in Forensic Contexts seeks to shed light on children s sense making relevant to forensic issues And the essay Beyond the Black and White of Autism How Cognitive Performance Varies with Context ventures in the area of autism a disorder that demonstrates atypical processes of combining pieces of information The final two essays provide original data to add to the discussion of what factors affect cognitive functioning In particular the essay Cognitive Fitness in Young Adult Video Game Players seeks to re assess the often assumed relation between video gaming and various aspects of thinking memory intelligence and visual spatial abilities And the essay Impact of Moving Away from Home on Undergraduate Metacognitive Development explicitly connects life circumstances to the ability to monitor and control one s thinking Together the collection of essays are a further step towards understanding the process of sense making as children and young adults interact with their environment
