Carved Stone Life After War:

The Slavs of the War Zone William Frederick Bailey,1917 *Blessed Peacemakers* Kerry Walters,Robin Jarrell,2013-02-12 All of us yearn for a peaceable and just world but some roll up their sleeves and set to work to make the dream real Blessed Peacemakers celebrates 365 of them one for each day of the year Their stories are richly diverse They share a commitment to peace and justice but the various contexts in which they work make each of their stories uniquely instructive The peacemakers include women men and children from across the globe spanning some twenty five hundred years Many are persons of faith but some are totally secular Some are well known while others will be excitingly new They are human rights and antiwar activists scientists and artists educators and scholars songwriters and poets film directors and authors diplomats and economists environmentalists and mystics prophets and policymakers Some are unlettered but all are wise A few died in the service of the dream All sacrificed for it The world is a better place for the presence of blessed peacemakers Their inspiring stories embolden readers to join them in nonviolent resistance to injustice and the creative pursuit of peace My Life as a Replica Sally Foster,Sian Jones,2020-04-29 In 1970 a concrete replica of the St John s Cross arrived in Iona sitting incongruously on the deck of a puffer delivering the island s annual supply of coal What is the story behind this intriguing replica How does it relate to the world s first ringed Celtic cross an artistic and technical masterpiece which has been at the heart of the Iona experience since the eighth century What does it tell us about the authenticity and value of replicas In this fascinating book Foster and Jones draw on extensive interdisciplinary research to reveal the composite biography of the St John s Cross its concrete replica and its many other scale copies They show that replicas can acquire rich forms of authenticity and value informed by social relations craft practices creativity place and materiality Thus the book challenges traditional precepts that seek authenticity in qualities intrinsic to original historic objects Replicas are shown to be important objects in their own right with their own creative human histories biographies that people can connect with The story of the St John s Cross celebrates how replicas can work for us if we let them particularly if clues are available about their makers passion creativity and craft Sacrifice and Modern War Writing Alex Houen,2024-09-05 Sacrifice and Modern War Writing presents the most extensive study to date of twentieth and twenty first century war writing Examining works by over 110 authors Alex Houen surveys how war writing explores sacrifice in relation to major modern and contemporary conflicts from the First World War to the War on Terror Various conceptions of sacrifice are examined including Christian Jewish Islamic and secular The discussion ranges across literary portrayals of multiple sacrificial practices including ancient rituals of child sacrifice martyrdom scapegoating and suicide bombing Houen builds an innovative interdisciplinary approach to how war sacrifice and their representations interrelate and a wide range of Anglophone literature is discussed including novels memoirs short stories essays manifestoes elegies ballads and lyric poetry Whereas critics and theorists have tended to emphasize that war s reality exceeds any attempt to represent it Houen

contends that political religious and cultural frames of sacrifice have continued to play a significant part in shaping how war s reality is shaped and experienced Those frames are inextricably tied to modes of representation which include symbolism and mimesis Sacrifice and Modern War Writing explores how sacrificial killing in war is itself riddled with symbolic transfigurations and mimetic exchanges and it builds a fresh approach by arguing that the figurative and imaginative aspects of literary writing ironically become its very means of engaging closely with the reality of war s sacrifices That approach also develops by using the literary analyses to critique and revise various prominent theories of sacrifice and war **USSR Information Bulletin** ,1945 Adventures in the Paleolithic- Clans at War Ruben Ygua,2025-07-27 Centuries before the first pharaohs when the great kingdoms had not yet been born primitive tribes constituted the first societies in the valleys of the great rivers Nile Euphrates and Tigris in Anatolia and on the edge of deserts and mountains Sedentary villages existed millennia before agriculture and the domestication of animals inhabited by hunter gatherer clans who practiced a nomadic life only when climatic changes affected the resources of their territory These people organized communities that maintained an intense trade in the middle of the Stone Age exchanging the most diverse products sometimes transported more than two thousand kilometers from their place of origin without the help of any animal sometimes navigating rivers and seas Before pottery before the spread of the use of copper before the domestication of the horse before the plow complex societies of hunters collected wild cereals to make wheat and barley flour drank beer consumed bread and erected sanctuaries and temples which archaeology has only just begun to discover At the dawn of time the first chapters of human history took place at a time when only one animal had been domesticated the dog However mankind was not left to its own devices powerful gods watched and sometimes intervened *Scenes and Traces of the English Civil War* Stephen Bann,2020-05-11 The English Civil War has become a frequent point of reference in contemporary British political debate A bitter and bloody series of conflicts it shook the very foundations of seventeenth century Britain This book is the first attempt to portray the visual legacy of this period as passed down revisited and periodically reworked over two and a half centuries of subsequent English history Highly regarded art historian Stephen Bann deftly interprets the mass of visual evidence accessible today from ornate tombs and statues to surviving sites of vandalism and iconoclasm public signage and historical paintings of human subjects events and places Through these important scenes and sometimes barely perceptible traces Bann shows how the British view of the War has been influenced and transformed by visual imagery *Popular Science* ,1883-07 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Creating Memory John Warkentin,2010 Toronto has over 600 public outdoor sculptures works of art that provide a sense of the rich variety of life and work in the city its peoples cultures and aspirations Interest in commissioning public sculpture began slowly in the nineteenth and early twentieth century but increased rapidly after the

1950s This is a book about the sculptures and how they disclose the city to itself Creating Memory s two introductory sections examine the factors behind this expansion over time and the changes in style as one generation of sculptors succeeded another It looks at the reasons behind the changes as sculptures were conceived sculpted and erected More than 10 categories of sculptures are defined and discussed including Founding the City Natural Environment Immigration Ethnic Groups Economic Activities Disaster and Calamity War And Conflict Leaders Ordinary Citizens Community Life and Works of the Imagination Shadow of the Sentinel Warren Getler,Bob Brewer,2003 Explores the legacy of a Civil War era secret society the Knights of the Golden Circle and describes efforts to crack the society s system of codes and symbols to identify hidden treasure sites across the American south and west
