the International Criminal Court and it contemplates offences for which a defence of mistake of law may potentially succeed Finally the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment Whilst the discourse on international criminal law is more and more concerned with global politics The Defence of Mistake of Law in International Criminal Law brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant a human being constituting the basic unit of each society
