The European Central Bank as a Sustainability Role Model Harald Bolsinger, Johannes Hoffmann, Bernd Villhauer, 2020-10-22 This book examines selected actions and investments of the European Central Bank ECB from a climate and sustainability standpoint Shedding new light on the topic from various angles ethical philosophical political economical and legal it situates sustainability mainstreaming in the finance and investment field at all levels The former ECB President Mario Draghi once said that he considered sustainable development and an intact environment to be human rights and therefore enshrined in the EU Charter of Fundamental Rights The acting ECB President Christine Lagarde added that the future path for the climate is uncertain but it would remain within our power to influence it However with all that in mind the ECB s policy of buying assets as securities is often questionable This volume analyzes these actions in connection with sustainability and puts forward practical recommendations for improving the ECB s investment strategy on its way creating a sustainable financial market

Carbon Free , 2025-03-03 It s now or never The goal of achieving global climate neutrality is essential for ecological economic and social reasons and requires immediate and decisive action from politicians and society Carbon Free summarizes the building blocks we need to successfully manage the energy transition Replete with international examples the book s first part explores the transformation of the energy markets necessary accompanying redistributions the often neglected issue of global population development but also the ethical and political framework conditions under which the energy transition should take place Part II deals with sector specific topics including renewable energies heat pumps geothermal energy and solar thermal energy Levelized costs of energy in the context of innovation promotion and the financing method of project financing are presented The chapters in this part discuss implementation of strategic energy partnerships and how to shape future regulatory steps The book s third part then goes on to discuss the available toolbox with contributions on the technical and economic perspectives of green hydrogen grid infrastructures digitalization as well as the circular economy This book will benefit both scholars and practitioners with its unique overview of the elements that need to be taken into account in order for the energy transition to succeed

The European Economic Area Enlarged Peter-Christian Müller-Graff, 2006-01-01

The Politics of Economic Reform in Germany Kenneth Dyson, Stephen Padgett, 2014-07-16 This new volume situates current debates about economic reform in Germany in illuminating historical and structural contexts Showing how economic reform has become the central issue on the German political agenda raising contentious issues of policy management and posing deeper questions about political beliefs and identities It also examines the politics of the reform process outlining competing views about the root causes of Germany s economic problems the appropriate policy responses and the distribution of costs It situates the reform process in the wider context of the decline of the German economic model Modell Deutschland and Germany s transition from European pace setter to economic laggard Particular attention is paid to the following key questions What continuities and discontinuities can be seen in Germany s

political economy Are globalization and Europeanization associated with a progressive neo liberal ascendancy in economic reform How does economic reform in Germany compare with that in other states notably Britain and France Are there distinctive patterns in the way domestic policymakers negotiate economic reform How do the characteristics of the German labour market and welfare state condition economic reform How much variation exists at the Laender levels This book was previously published as a special issue of German Politics

Blocking Patents in European Competition Law Angelika S. Murer, 2021-12-03 In practice and jurisprudence in European competition law it is especially difficult to define the boundaries of patent abuse as an offence In this thoroughly researched book the author answers the question of when and how an application for a blocking patent can amount to an abuse of a dominant position under Article 102 TFEU Drawing on legal literature and European Union EU case law the presentation analyses a constellation of blocking patenting strategies and proposes potential remedies where abuse is involved With detailed descriptions of the characteristics of potentially abusive and non abusive behaviour regarding applications for blocking patents the book provides the following and more a comprehensive analysis of the case law of the EU courts on the abuse of a dominant position in cases which involve intellectual property rights insights on how patenting strategies affect competition with a particular focus on the application of blocking patents an overview of the developments in doctrine and practice which led to the current understanding of the seemingly conflictual goals of competition and intellectual property law and insights on the difficulties of defining relevant markets and establishing whether an undertaking holds a dominant position The book illustrates the mechanisms of blocking patenting strategies with examples from the pharmaceutical industry because blocking strategies have particular relevance in applying for patents in that context A test scheme for analysing the application of a blocking patent under Article 102 TFEU is included Additionally the book provides an outlook on the topic of patents and shortages of supply in light of the COVID pandemic Practitioners and policymakers requiring an understanding of the conceptual framework of the abuse concept within EU competition law and how it relates to patent strategies will welcome this invaluable book They will not only be able to set the conduct of applying for blocking patents into the Article 102 TFEU context but also have decisive tools to approach questions on the intersection of patent law and competition law in the EU

EU Liability and International Economic Law Armin Steinbach, 2017-06-01 The book provides both a legal and economic assessment of an increasingly important issue for the EU the question of whether individuals can hold the European Union liable for damages they suffer due to its infringement of international economic law However liability regimes vary depending on the issue concerned In international trade law the individual holds a weak position being deprived of both legal remedies to seek annulment and damages This is due to the constant refusal of the direct effect of WTO law By contrast international investment law has been designed in an individualistic manner from the outset states agree reciprocally to grant certain procedural and substantial individual rights which they invoke to claim damages before international tribunals rather than domestic courts The

divergent role of the individual in the respective area of international economic law leads to a different set of research questions related to liability In international trade law the doctrinal exercise of de coupling the notion of direct effect from liability is at the core of establishing liability In international investment law liability is connected to a number of issues emerging from the recent transfer of competence pertaining to investment issues from Member States to the EU and the nature of investment agreements as mixed agreements Against this backdrop exploring liability issues in the area of international economic law reveals a heterogeneous set of questions depending on the area of law concerned thus offering different perspectives for studying liability issues This title is included in Bloomsbury Professional s International Arbitration online service

The Future of Secured Credit in Europe Horst Eidenmüller, Eva-Maria Kieninger, 2012-07-12 This volume contains the reports and discussions presented at the conference The Future of Secured Credit in Europe in Munich from July 12th to July 14th 2007 It aims at taking the debate to a new stage by exploring the need and possible avenues for creating a European law of security interests The first part examines from an economic and a community law perspective the case for European lawmaking on secured credit and the legislative approach to be taken The intention in the second and third part is to look in more detail at the choices European lawmakers will have to make in devising a European law of secured credit The second part focuses on secured transactions involving corporeal movables tangibles whereas the third part considers categories of collateral that may require special rules

Regulierung und Privatrecht Alexander Hellgardt, 2016-10-06 Privatrecht ist ein Werkzeug des Gesetzgebers zur Regulierung von Wirtschaft und Gesellschaft Ausgehend von dieser anhand des Kauf und des Sachenrechts belegten These legt Alexander Hellgardt eine umfassende Untersuchung des Einsatzes von Privatrecht zur Verhaltenssteuerung im öffentlichen Interesse vor Er untersucht den unions und verfassungsrechtlichen Rahmen der Regulierung mittels Privatrecht und entfaltet die Konsequenzen für Rechtswissenschaft Gesetzgebung und Gerichtspraxis Der Autor demonstriert wie Privatrechtswissenschaft zu einer Regulierungswissenschaft werden kann er entwickelt Kriterien die den Gesetzgeber bei der Wahl von Regulierungsinstrumenten im Einzelfall anleiten können und zeigt wie die Rechtsanwendung die Regulierungsfunktion aufnehmen kann indem die teleologische Auslegung um Elemente der Folgenabschätzung und Steuerung erweitert wird

Structural Principles of EU Law Marcus Klamert, 2025-10-16 This book provides the first comprehensive treatment of the principles shaping EU law autonomy conferral equality national identity loyalty solidarity supremacy and effectiveness Much has been written about principles of EU law inspired by national law such as fundamental rights but what of the principles that are specific to EU law The book discusses the origins of the EU s structural principles where they are located and how they are applied in practice The author proposes that these principles are deeply interrelated and ensure the legal unity and uniformity of EU law Their role in the EU s external relations is also explored This book brings a much needed focus to the network of structural principles upholding the EU s constitutional order

The Europeanisation of International Family

Law N. A. Baarsma, 2011-09-06 Choice of law determines which national legal system applies to an international case. Currently many choice of law rules in the field of family law are regulated by national law. However these national rules of the EU Member States are more and more displaced by common European rules. This book describes the changes brought by the Europeanisation of the choice of law on divorce. From the conclusions drawn in the field of divorce the concluding chapter discusses the changes of Europeanisation of international family law in a broader perspective.
