TO THE OWNER

This manual contains important information about the safe operation, adjustment, service and maintenance of your Case machine. Do not operate or permit anyone else to operate or service this machine until you or the other persons have read this manual. Use only trained operators who have demonstrated the ability to operate and service this machine correctly and safely.

This machine, with standard attachments and equipment, is intended to be used for below ground level digging and general earthmoving purposes, such as trenching, truck loading, and material rehandling.

If the backhoe is to be used to lift loads, for safety purposes it is recommended that the machine is properly equipped. Contact your Case dealer and install a "Load Holding Control Device" on your machine's boom cylinders. This system prevents the sudden lowering of the load in the event of a failure of a hydraulic hose, line, or fitting in the boom hydraulic system. Such a failure can cause personal injury or death. Read "Lifting with the Backhoe" in this manual and follow the instructions and safety precautions. See page 103.

Do not use this machine for any application or purpose other than those described in this manual. Unauthorized modifications can cause serious injury or death. Anyone making such unauthorized modifications is responsible for the consequences.

This operator's manual is to be stored in the compartment in front of the steering wheel and is attached with a lanyard. Make sure this manual is complete and in good condition. Contact your Case dealer to obtain additional manuals.

Contact your authorized Case dealer for any further information about this machine. Your Case dealer has genuine Case parts and service which is your guarantee of Quality and Performance.
