Das neue Europa

Das Neue Europa German Edition

Tom Dyson

Das Neue Europa German Edition:

Mitteleuropa Henry Cord Meyer, 2013-03-09 Books begin as ideas The suggestion for this one came from my mentor and friend Hajo Holborn of Yale University To him I am indebted for a series of challenging and rewarding experiences in the study of history This work started as a routine dissertation on a limited subject developed into a rejection of several generally accepted notions about German history and finally opened out upon some broader perspectives of the modern Western world In pursuing my topic I have tried to remain consistent and true to a fundamental conviction that ideas cannot be dissociated from the men and situations that give birth to them or from the changing characteristics of later men and later situations that use or affect the earlier ideological heritage Politics by slogan is an aspect of man's activity that has its obvious serious defects These imperfections become more menacing when they are enshrined as history by slogan in the service of whatever cause To counteract this tendency I have tried to tie the ideas of mid European integration clearly to specific persons or situations at every stage of development Without such anchorage ideas will billow into slogans or evaporate into loose generalizations *Federalism in Central and Eastern Europe* Rudolf Schlesinger, 2013-09-27 First Published in 1998

Federalism became highly fashionable among all kind of blue printers those who believed in the capacity of constitutional forms to solve all the fundamental issues of social life as well as those who were on the look out for new descriptions for rather old fashioned political concepts just before World War II This volume is a more thorough study of the problems of Federalism in Central and Eastern Europe Contribute to the study of these problems as an analysis of the problems of democratic devolution arising from variety in social and cultural outlook and of the limits within which such variety might be integrated by federal organisation **Arab Spring in Berlin and Paris: German and French Foreign Policy Between**

Continuity and Change Nurettin Yigit, 2015 The Arab Spring has not only affected the well established structures in the Middle East and North Africa MENA but became also a touchstone for the German and French foreign policy A lasting three year transformation process turned out to be an unpredictable factor for the traditional German and French foreign policy principles within a novel geopolitical environment In this respect this study deals with the comparative foreign policy analysis of Germany and France with regard to the transformations in the MENA since 2011 Analysis is done on the basis of constructivist role theory in connection with the Civilian Power concept Major interest of this study is dedicated to the analysis of the foreign policy repertoire and identity of Germany and France towards the transition countries in North Africa A question is to be answered if the challenges provoke continuity or change **Goebbels** Peter Longerich, 2015-05-05

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE TELEGRAPH From renowned German Holocaust historian Peter Longerich comes the definitive one volume biography of Adolf Hitler's malevolent minister of propaganda In life and in the grisly manner of his death Joseph Goebbels was one of Adolf Hitler's most loyal acolytes By the end no one in the Berlin bunker was closer to the Führer than his devoted Reich minister for public enlightenment and propaganda But how did this

clubfooted son of a factory worker rise from obscurity to become Hitler's most trusted lieutenant and personally anointed successor In this ground breaking biography Peter Longerich sifts through the historical record and thirty thousand pages of Goebbels's own diary entries to provide the answer to that question Longerich the first historian to make use of the Goebbels diaries in a biographical work engages and challenges the self serving portrait the propaganda chief left behind Spanning thirty years the diaries paint a chilling picture of a man driven by a narcissistic desire for recognition who found the personal affirmation he craved within the virulently racist National Socialist movement Delving into the mind of his subject Longerich reveals how Goebbels's lifelong search for a charismatic father figure inexorably led him to Hitler to whom he ascribed almost godlike powers This comprehensive biography documents Goebbels's ascent through the ranks of the Nazi Party where he became a member of the Führer's inner circle and launched a brutal campaign of anti Semitic propaganda Though endowed with near dictatorial control of the media film radio press and the fine arts Longerich's Goebbels is a man dogged by insecurities and beset by bureaucratic infighting He feuds with his bitter rivals Hermann Göring and Alfred Rosenberg unsuccessfully advocates for a more radical line of total war and is thwarted in his attempt to pursue a separate peace with the Allies during the waning days of World War II This book also reveals as never before Goebbels's twisted personal life his mawkish sentimentality manipulative nature and voracious sexual appetite A harrowing look at the life of one of history's greatest monsters Goebbels delivers fresh insight into how the Nazi message of hate was conceived nurtured and disseminated This complete portrait of the man behind that message is sure to become a standard for historians and students of the Holocaust for decades to come Praise for Goebbels Peter Longerich has delved into rarely accessed material from his subject's diaries which span thirty years to paint a remarkable portrait of the man who became one of Hitler's most trusted lieutenants The Daily Telegraph Praise for Heinrich Himmler There have been several studies of this enigmatic man but Peter Longerich's massive biography grounded in exhaustive study of the primary sources is now the standard work and must stand alongside Ian Kershaw's Hitler Ulrich Herbert's Best and Robert Gerwarth's Hitler's Hangman The Life of Heydrich as one of the landmark Nazi biographies As the author of a celebrated study of the Holocaust Longerich is better able than his predecessors to situate Himmler within the vast machinery of genocide And he brings to his task a gift for capturing those mannerisms that are the intimate markers of personality London Review of Books An excellent and comprehensive biography The New York Review of Books

Re-Viewing the Cold War Patrick M. Morgan, Keith Nelson, 2000-02-28 A cooperative effort by a number of historians and political scientists this essay collection focuses on the important connection between domestic affairs and foreign relations during the Cold War The case studies treat phases of both the Soviet and American experiences and involve contributions by two Russian scholars three Americans a German a Swede and an Israeli This collection is particularly timely and significant because of the surprising way the Cold War ended making clear that domestic developments can overthrow even the most potent foreign policies and undermine longstanding

assumptions about the primacy of international factors A provocative essay collection this will be of interest to diplomatic historians and Soviet Affairs specialists scholars and students

Nazi Germany and Southern Europe, 1933-45

Fernando Clara, Cláudia Ninhos, Sasha Grishin, 2016-04-29 Nazi Germany and Southern Europe 1933 45 is about transnational fascist discourse It addresses the cultural and scientific links between Nazi Germany and Southern Europe focusing on a hybrid international environment and an intricate set of objects that include individual social cultural or scientific networks and events

The Politics of German Defence and Security Tom Dyson, 2008-03-01 The post Cold War era has witnessed a dramatic transformation in the German political consensus about the legitimacy of the use of force However in comparison with its EU and NATO partners Germany has been reticent to transform its military to meet the challenges of the contemporary security environment Until 2003 territorial defence rather than crisis management remained the armed forces core role and the Bundeswehr continues to retain conscription The book argues that strategic culture provides only a partial explanation of German military reform It demonstrates how domestic material factors were of crucial importance in shaping the pace and outcome of reform despite the impact of international structure and adaptational pressures from the EU and NATO The domestic politics of base closures ramifications for social policy financial restrictions consequent upon German unification and commitment to EMU s Stability and Growth Pact were critical in determining the outcome of reform The study also draws out the important role of policy leaders in the political management of reform as entrepreneurs brokers or veto players shifting the focus in German leadership studies away from a preoccupation with the Chancellor to the role of ministerial and administrative leadership within the core executive Finally the book contributes to our understanding of the Europeanization of the German political system arguing that policy leaders played a key role in uploading and downloading processes to and from the EU and that Defence Ministers used Atlanticization and Europeanization in the interests of their domestic political agendas

The Ratification of the Maastricht Treaty Finn

Laursen, Sophie Vanhoonacker, 2023-08-28

The Harmonisation of European Contract Law Stefan Vogenauer, Stephen Weatherill, 2006-03-16 After an extended period in which the European Community has merely nibbled at the edges of national contract law the bite of a European contract law has lately become more pronounced Many areas of law from competition and consumer law to gender equality law are now the subject of determined efforts at harmonisation though they are perhaps often seen as peripheral to mainstream commercial contract law Despite continuing doubts about the constitutional competence of the Commission to embark on further harmonisation in this area European contract law is now taking shape with the Commission prompting a debate about what it might attempt A central aspect of this book is the report of a remarkable survey carried out by the Oxford Institute of European and Comparative Law in collaboration with Clifford Chance which sought the views of European businesses about the advantages and disadvantages of further harmonisation The final report of this survey brings much needed empirical data to a debate that has thus far lacked clear evidence of this

sort The survey is embedded in a range of original and up to date essays by leading European contract scholars reviewing recent developments questioning progress so far and suggesting areas where further analysis and research will be required

Germany and the European Union Simon Bulmer, William E. Paterson, 2018-11-08 Winner of the UACES Best Book Prize 2020 The jury commented It is impossible to study or understand European integration without understanding Germany's role and place in this This book is therefore a must read This new textbook offers a path breaking interpretation of the role of the European Union's most important member state Germany Analyzing Germany's domestic politics European policy relations with partners and the resultant expressions of power within the EU the text addresses such key questions as whether Germany is becoming Europe's hegemon and if Berlin's European policy is being constrained by its internal politics The authors both leading scholars in the field situate these questions in their historical context and bring the subject up to date by considering the centrality of Germany to the liberal order of the EU over the last turbulent decade in relation to events including the Eurozone crisis and the 2017 German federal election This is the first comprehensive and accessible guide to a fascinating relationship that considers both the German impact on the EU and the EU's impact on Germany This book is the ideal companion for undergraduate and postgraduate students who are studying the European Union or German Politics from the perspectives of disciplines as wide ranging as Politics European Union Studies Area Studies Economics Business and History It is also an essential resource for all those studying or practicing EU policy making and communication
