Data Analysis In Community And Landscape Ecology:

Data Analysis in Community and Landscape Ecology R. H. Jongman, C. J. F. Ter Braak, O. F. R. van Tongeren, 1995-03-02 Ecological data has several special properties the presence or absence of species on a semi quantitative abundance scale non linear relationships between species and environmental factors and high inter correlations among species and among environmental variables The analysis of such data is important to the interpretation of relationships within plant and animal communities and with their environments In this corrected version of Data Analysis in Community and Landscape Ecology without using complex mathematics the contributors demonstrate the methods that have proven most useful with examples exercises and case studies Chapters explain in an elementary way powerful data analysis techniques such as logic regression canonical correspondence analysis and kriging

Data Analysis in Community and Landscape Ecology R. H. G. Jongman, C. J. F. ter Braak, O. F. R. Van Tongeren, 1995 *Visualization and Verbalization of Data* Jorg Blasius, Michael Greenacre, 2014-04-10 Visualization and Verbalization of Data shows how correspondence analysis and related techniques enable the display of data in graphical form which results in the verbalization of the structures in data Renowned researchers in the field trace the history of these techniques and cover their current applications The first part of the book explains

Methods and Approaches in Forest History Mauro Agnoletti, Steven Anderson, 2000 A companion to Forest History International Studies on Socioeconomic and Forest Ecosystem Change which includes over 20 papers from the same conference This book focuses on the different approaches and methods adopted in the study of forest history The interdisciplinary nature of these studies is emphasized bringing in the different perspectives of anthropologists botanists ecologists foresters historians geneticists and geographers This volume demonstrates the rich diversity of approaches and methods to forest history and the need to integrate them to give a more meaningful understanding of human nature interactions making forest history a more effective tool for the management of forest ecosystems

Scenario Studies for the Rural Environment Job F.Th. Schoute, Peter A. Finke, Frank R. Veeneklaas, Henk P. Wolfert, 2012-12-06 Rural areas need to fulfil a large variety of functions and to accommodate many activities The complexity of the problems limited funds and the almost irreversible character of some interventions result in a compelling need to evaluate ex ante the effects of alternative solutions for designation of land for measures to develop infrastructure and for soil and water management Scenario studies are undertaken to help manage the complexity to place bounds on uncertainties and to create new visions After an overview of the nature variety and scope of scenario studies the book illuminates various European examples and reviews under the following headings regional soil and water management nature development and landscape quality rural planning and the future of regions
