**Banning Black Gods** Danielle N. Boaz, 2021-02-18 Banning Black Gods is a global examination of the legal challenges faced by adherents of the most widely practiced African derived religions in the twenty first century including Santeria Lucumi Haitian Vodou Candomblé Palo Mayombe Umbanda Islam Rastafari Obeah and Voodoo Examining court cases laws human rights reports and related materials Danielle N Boaz argues that restrictions on African diaspora religious freedom constitute a unique and pervasive form of anti Black discrimination Emphasizing that these twenty first century cases and controversies are not a new phenomenon but rather a reemergence of colonial era ideologies and patterns of racially motivated persecution Boaz focuses each chapter on a particular challenge to Black religious freedom She examines issues such as violence against devotees restrictions on the ritual slaughter of animals limitations on the custodial rights of parents and judicial refusals to recognize these faiths as protected religions Boaz introduces new issues that have never been considered as a question of religious freedom before such as the right of Palo Mayombe devotees to possess remains of the dead and she brings together controversies that have not been previously regarded as analogous such as the right to wear headscarves and the right to wear dreadlocks in schools Framing these issues in comparative perspective and focusing on transnational and transregional issues Boaz advances our understanding of the larger human rights disputes that country specific studies can overlook Original and compelling this important new book will be welcomed by students and scholars of African diaspora religions and discerning readers interested in learning more about the history of racial discrimination

**The Satanism Scare** Joel Best, 2017-09-29 Although there is growing concern over Satanism as a threat to American life the topic has received surprisingly little serious attention Recognizing this the editors of this volume have selected papers from a wide variety of disciplines broadly covering contemporary aspects of Satanism from the vantage points of studies in folklore cults religion deviance rock music rumor and the mass media All contributors are skeptical of claims that a large powerful satanic conspiracy can be substantiated Their research focuses instead on claims about Satanism and on the question of whose interests are served by such claims Several papers consider the impact of anti Satanism campaigns on public opinion law

enforcement and civil litigation child protection services and other sectors of American society The constructionist perspective adopted by the editors does not deny the existence of some activities by real Satanists and two papers describe the workings of satanic groups Whatever the basis of the claims examined and analyzed there is growing evidence that belief in the satanic menace will have real social consequences in the years ahead

**Satanism: A Social History** Massimo Introvigne, 2016-08-29 A 17th century French haberdasher invented the Black Mass An 18th century English Cabinet Minister administered the Eucharist to a baboon High ranking Catholic authorities in the 19th century believed that Satan appeared in Masonic lodges in the shape of a crocodile and played the piano there A well known scientist from the 20th century established a cult of the Antichrist and exploded in a laboratory experiment Three Italian girls in 2000 sacrificed a nun to the Devil A Black Metal band honored Satan in Krakow Poland in 2004 by exhibiting on stage 120 decapitated sheep heads Some of these stories as absurd as they might sound were real Others which might appear to be equally well reported are false But even false stories have generated real societal reactions For the first time Massimo Introvigne proposes a general social history of Satanism and anti Satanism from the French Court of Louis XIV to the Satanic scares of the late 20th century satanic themes in Black Metal music the Church of Satan and beyond
