Crystallizing Public Opinion Paperback 2011 Author Edward Bernays Stuart Ewen:

Media and Culture with 2013 Update Richard Campbell, Christopher R. Martin, Bettina Fabos, 2012-02-20 Today's media landscape is changing faster than ever and students are experiencing these developments firsthand. Media Culture pulls back the curtain on the media and shows students what all these new trends and developments really mean, giving students the deeper insight and context they need to become informed media critics. The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions and what the News Corp phone hacking scandal means for journalism to the continued growth of television streaming and apps and the advent of tablet-only newspapers. Read the preface. *SUMMARY* Edition Shortcut (author), 1901. [Crystallizing Public Opinion](#) Edward Louis Bernays, 2020-05-12. What is public opinion? Whatever it is, it is often so vague, chameleonic, and evanescent that attempts to formulate it are in vain. But in general, public opinion may be defined as the aggregate of individual judgments, the conclusions, sometimes uniform but frequently conflicting, of the men and women constituting society or any one of its various groups. The ever-increasing importance of public opinion in our modern world has created a new profession: counsel on public relations. This is a new phrase to describe an activity that is old. In his book *Crystallizing Public Opinion*, Mr. Edward L. Bernays, a professor in New York University, sets forth the scope and functions of the profession. The work of the counsel on public relations is of growing importance, he points out, because of three facts: The tendency of small organizations to group themselves in one large organization of a semi-public nature; the increased willingness of the public to make its voice heard in the conduct of affairs; and the keen competition in modern methods of selling. The function of the public relations counsel is therefore somewhat like the business of the attorney to advise his client and to litigate his causes for him. In the motivation of public judgments, he must begin with the established point of view which has its foundations in individual notions or stereotypes. In the technique of his work, he is aided in spite of the highly heterogeneous nature of society by the interlapping of innumerable groups which make possible widespread appeals. In the ethical relations involved, certain it is that the counsel on public relations, as purveyor and creator of news, must conform to the highest moral and technical requirements. Thus, in his treatment of the scope and functions of the newly recognized profession, public relations counsel, in his analysis of group psychology underlying the subject, in his description of the technique and methods employed, and in his portrayal of the ethical issues involved, Mr. Bernays has made a contribution to the better understanding of public opinion. He has indicated clearly what is the duty of those who are learned and expert in discovering, interpreting, and creating the public will. In the words of Professor Tonnies, cited by Mr. Bernays: They must inject moral and spiritual motives into public opinion. Public opinion must become public conscience. *Advocate of Peace through Justice*, Vol. 86, No. 7.
