Women Empowerment and the Feminist Agenda in Africa Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2023-10-24 This book argues that African women's lived experiences are often spoken about authoritatively by people who are not included within this demographic relegating these women to the role of spectators in their own stories. The dominant narratives of African womanhood legitimized by intellectual discourse are neither written by African women nor Africans in general. This book seeks to place feminism in Africa into its historical context by revisiting the experiences, practices, vision and theories of feminism and gender in Africa. It is intended to serve as a comprehensive introduction to the field and provide a starting point for further and more advanced study of the nexus of feminism, gender and development in Africa. *Women Empowerment and the Feminist Agenda in Africa* is designed to initiate post graduate research and studies in the social sciences for directed and critical inquiry into the nature of feminist and gender politics and power relations in Africa. It is written for researchers, academics and advanced tertiary studies although professional gender and feminist organizations especially those in Africa or focusing on Africa will also find a wealth of information. The book is recommended for university libraries, post graduate students and staff, the non-governmental community in Africa, women movement organizations in Africa, independent researchers and academics and the African community at large.
