## **Changing Places Rebuilding Community In The Age Of Sprawl:**

Changing Places Richard Moe, Carter Wilkie, 1999-04-15 America's preservation movement has long fought the destructive force of so called urban renewal where highways and shopping malls rise up on the rubble of former thriving downtowns Now communities are in the fight of their lives against urban sprawl boundless development that devours the countryside and leaves cities and small towns in ruins a fight that is as much about preserving our civic space as our landscape In Changing Places authors Richard Moe and Carter Wilkie give examples of how America's embattled towns are defying themselves against corporate giants and depressed economies from community activists restoring pride in their innercities to municipalities breathing life back into historic downtowns At once cautionary and redemptive Changing Places has been hailed by David McCullough as a call to arms that should be read by everyone alarmed by the rampant devastation of our cities our towns our history and our way of life

Designing Responsive City Centers Amir Shakibamanesh, Mahshid Ghorbanian, 2025-01-11 This book explores the history and evolution of city centers and provides practical guidance for designing successful city centers emphasizing the importance of urban design guidelines in achieving this goal With a focus on community engagement environmental quality and economic benefits the book offers a roadmap for creating vibrant dynamic and sustainable city centers that enhance the overall quality of life for their communities The book offers guidelines for urban design which can be used to apply the main principles and solutions related to landscaping building architecture and access systems The guidelines manifest development policies as key solutions and govern the qualitative aspects of the plan enabling the creation of responsive city centers that benefit their communities An invaluable resource for anyone interested in urban design and its role in shaping the cities of the future this book is an essential tool for creating successful and sustainable urban environments

**The Politics of Place** Gregory J. Crowley, 2005-11-04 In urban America large scale redevelopment is a frequent news item Many proposals for such redevelopment are challenged sometimes successfully and other times to no avail The Politics of Place considers the reasons for these outcomes by examining five cases of contentious redevelopment in Pittsburgh Pennsylvania between 1949 and 2000 In four of these cases the challengers to redevelopment failed to create the conditions necessary for strong democratic participation In the fifth case the proposed reconstruction of Pittsburgh's downtown retail district 1997 2000 challengers succeeded and Crowley describes the crucial role of independent nonprofit organizations in bringing about this result At the heart of Crowley's discussion are questions central to any urban redevelopment debate Who participates in urban redevelopment what

motivates them to do so and what structures in the political process open or close a democratic dialogue among the stakeholders Through his astute analysis Crowley answers these questions and posits a framework through which to view future contention in urban redevelopment

**The Sociology of Community Connections** John G. Bruhn, 2011-07-18 Many of our current social problems have been attributed to the breakdown or loss of community as a place and to the fragmentation of connections due to an extreme value of individualism in the Western world particularly in the United States Not all scholars and researchers agree that individualism and technology are the primary culprits in the loss of community as it existed in the middle decade of the 20th century Nonetheless people exist in groups and connections are vital to their existence and in the daily performance of activities The second edition of the Sociology of Community Connections will identify and help students understand community connectedness in the present and future
