Crusading In The Fifteenth Century Message And Impact:

Crusading in the Fifteenth Century N. Housley, 2004-10-20 This collection of essays by European and American scholars addresses the changing nature and appeal of crusading during the period which extended from the battle of Nicopolis in 1396 to the battle of Mohacs in 1526 Contributors focus on two key aspects of the subject One is developments in the crusading message and the language in which it was framed These were brought about partly by the appearance of new enemies above all the Ottoman Turks and partly by shifting religious values and innovative currents of thought within Catholic Europe The other aspect is the wide range of responses which the papacy's repeated calls to holy war encountered in a Christian community which was increasingly heterogeneous in character This collection represents a substantial contribution to the study of the Later Crusades and of Renaissance Europe Crusading in the Fifteenth Century N. Housley, 2004-10-20 This collection of essays by European and American scholars addresses the changing nature and appeal of crusading during the period which extended from the battle of Nicopolis in 1396 to the battle of Mohacs in 1526 Contributors focus on two key aspects of the subject One is developments in the crusading message and the language in which it was framed These were brought about partly by the appearance of new enemies above all the Ottoman Turks and partly by shifting religious values and innovative currents of thought within Catholic Europe The other aspect is the wide range of responses which the papacy's repeated calls to holy war encountered in a Christian community which was increasingly heterogeneous in character This collection represents a substantial contribution to the study of the Later Crusades and of Renaissance Europe The Crusade in the Fifteenth Century Norman Housley, 2016-06-17 Increasingly historians acknowledge the significance of crusading activity in the fifteenth century and they have started to explore the different ways in which it shaped contemporary European society Just as important however was the range of interactions which took place between the three faith communities which were most affected by crusade namely the Catholic and Orthodox worlds and the adherents of Islam Discussion of these interactions forms the theme of this book Two essays consider the impact of the fall of Constantinople in 1453 on the conquering Ottomans and the conquered Byzantines The next group of essays reviews different aspects of the crusading response to the Turks ranging from Emperor Sigismund to Papal legates The third set of contributions considers diplomatic and cultural interactions between Islam and Christianity including attempts made to forge alliances of Christian and Muslim powers against the Ottomans Last a set of essays looks at what was arguably the most complex region of all for inter faith relations the Balkans exploring the influence of crusading ideas in the eastern Adriatic Bosnia and Romania Viewed overall this collection of essays makes a powerful contribution to breaking down the old and discredited view of monolithic and mutually exclusive fortresses of faith Nobody would question the extent and intensity of religious violence in fifteenth century Europe but this volume demonstrates that it was played out within a setting of turbulent diversity Religious and ethnic identities were volatile allegiances negotiable and diplomacy ideological exchange

and human contact were constantly in operation between the period's major religious groupings *Reconfiguring the Fifteenth-Century Crusade* Norman Housley, 2017-02-20 This collection of essays by eight leading scholars is a landmark event in the study of crusading in the late middle ages It is the outcome of an international network funded by the Leverhulme Trust whose members examined the persistence of crusading activity in the fifteenth century from three viewpoints goals agencies and resonances The crusading fronts considered include the conflict with the Ottoman Turks in the Mediterranean and western Balkans the Teutonic Order's activities in the Baltic region and the Hussite crusades The authors review criticism of crusading propaganda on behalf of the crusade the influence on crusading of demands for Church reform the impact of printing expanding knowledge of the world beyond the Christian lands and new sensibilities about the sufferings of non combatants **Church, State and Dynasty in Renaissance Poland** Natalia Nowakowska, 2017-03-02 This book provides the first comprehensive analysis of the career of Fryderyk Jagiellon 1468 1503 arguably the most powerful churchman in medieval or early modern Central Europe Royal prince bishop of Krak w Polish primate cardinal regent and brother to the rulers of Hungary Poland Bohemia and Lithuania Fryderyk was a leading dynastic politician diplomat ecclesiastic and cultural patron and a pivotal figure in three Polish royal governments Whereas Polish historians have traditionally cast Fryderyk as a miscreant and national embarrassment this study argues that he is in fact a figure of fundamental importance for our understanding of church and monarchy in the Renaissance who can enhance our grasp of the period in a variety of ways Jagiellon's career constitutes an ambitious state building programme executed in the three spheres of government ecclesiastical governance and cultural patronage which reveals the multi dimensional ways in which Renaissance monarchies might exploit the local church to their own ends This book also offers a rare English language insight into the development of the Reformation in central Europe and an analysis of the reigns of Kazimierz IV 1447 92 Jan Olbracht 1492 1501 Aleksander 1501 6 Poland's evolving constitution her foreign policy Jagiellonian dynastic strategy and above all the tripartite relationship between church Crown and state **Diplomacy in Renaissance Rome** Catherine Fletcher, 2015-10-14 Diplomacy in Renaissance Rome is an investigation of Renaissance diplomacy in practice Presenting the first book length study of this subject for sixty years Catherine Fletcher substantially enhances our understanding of the envoy's role during this pivotal period for the development of diplomacy Uniting rich but hitherto unexploited archival sources with recent insights from social and cultural history Fletcher argues for the centrality of the papal court and the city of Rome in the formation of the modern European diplomatic system The book addresses topics such as the political context from the return of the popes to Rome the 1454 Peace of Lodi and after 1494 the Italian Wars the assimilation of ambassadors into the ceremonial world the prescriptive literature trends in the personnel of diplomacy an exploration of travel and communication practices the city of Rome as a space for diplomacy and the world of gift giving **Crusades** Benjamin Z. Kedar, Jonathan Phillips, Jonathan Riley-Smith, 2016-08-12 Crusades covers seven hundred years from the First Crusade 1095

1102 to the fall of Malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology law literature art numismatics and economic social political and military history Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East Particular attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too Crusades appears in both print and online editions Volume 5 is notable for John s France s article Two types of vision on the First Crusade Stephen of Valence and Peter Bartholomew

Islam and Papal Power in Late Medieval and Early Modern Europe Kate Waggoner Karchner, 2025-03-19 Islam and Papal Power in Late Medieval and Early Modern Europe traces the influential history of another book Riccoldo da Montecroce s *Contra legem Sarracenorum* Around 1301 a Dominican missionary named Riccoldo da Montecroce wrote a treatise on the Qur an arguing against the validity of the Muslim faith Over the next two hundred years Europeans read copied translated and circulated Riccoldo s work more than any other text on Islam This study overviews and contextualizes that popularity in order to analyze Christian understandings of Islam in early modern Europe Analysing the thirty four surviving manuscript copies this book studies the way the text was transcribed the notes that readers made in the margins and the contexts in which it was copied Critically this book also puts the transmission analysis into the broader context of major European historical developments This context reveals that *Contra legem* became a tool for Europeans who linked fear of the Ottoman Empire to instability within the Church Specifically readers used Riccoldo s descriptions of the dangers of the Qur an to conflate the Ottoman Empire with a broader Islamic threat to Christian society Such positioning helped readers to substantiate the divine authority of the western Church and especially the papacy as a bulwark against this threat This book will be of interest to scholars working on interreligious dialogue and Christian Muslim relations in medieval and early modern Europe and the Mediterranean It will appeal to historians of religion scholars of late medieval and early modern thought and students of pre and early modern history at the upper undergraduate and graduate levels

Commentaries: Books III-IV Pope Pius II, 2003 The Renaissance popes were among the most enlightened and generous patrons of arts and letters in the Europe of their day *Commentaries* the only autobiography ever written by a pope was composed in elegant humanistic Latin modeled on Caesar and Cicero This edition contains a fresh Latin text and an updated translation

In the World of Vlad Alexandru Simon, 2021-10-07 The life in fact the lives of Vlad III the Impaller or Dracula is a Rorschach test Everybody sees what they want to see in the documentary stains And these stains are expanding Based on research in the archives and libraries of Budapest Dubrovnik Genoa Mantua Milan Modena Munich Rome Venice and Vienna the book focuses on the conflictive medieval and modern images created by the clash between the classical pictures of Vlad and the still preserved coeval sources
