Bringer of Chaos Bundle 1 Kayelle Allen,2022-08-17 If you're fighting immortals who always get back up you'd better have a way to do the same thing Otherwise it's lights out When you're a soldier genetically enhanced to the point of near immortality and you fight a mortal soldier resurrected with the pilfered blood of your people friendship never enters the equation But what if the enemy you despise holds the key to your salvation Here's what readers say I shouldn't like Pietas He's arrogant and pretends he's uncaring but he's one of the most fascinating characters I've read recently I loved this story A sci-fi bromance like nothing else I've ever read Pietas the Ultra of awesome powers both mental and physical is left helpless and doomed by humans and a betrayer from his own kind Six a once human ghost who should be the sworn enemy of any Ultra saves Pietas from a destiny worse than physical death The two are then marooned together on a distant most likely deserted planet The Ultra has vowed never to accept help from anyone even close to human That vow is challenged by his need to survive The ghost has pledged to destroy all Ultras on sight Watching Pietas and Six grapple through this deep dilemma was nothing short of beautiful for me If these adversaries can navigate the chasm of hatred distrust and male ego between them maybe there's hope for our own fractured world I was immersed into a setting where every character is dealing with decisions and where the wrong one is like having a jar of nitroglycerine and dropping it at his or her own feet Characters to root for and a story that satisfies all of the criteria of what makes up an excellent novel Read the Bringer of Chaos Bundle 1 containing the first two books in the ongoing Bringer of Chaos saga plus a bonus novelette Lights Out Think Enemy Mine meets Lethal Weapon on a deserted sci-fi world

Encyclopedia of Death & Human Experience Clifton D. Bryant,Dennis L. Peck,2009-07-15 This two volume Encyclopedia through multidisciplinary and international contributions and perspectives organizes defines and clarifies more than 300 death related concepts
