

Motorola CS3000 Series

1D Laser Scanning Device

FEATURES

Flexible mobile 1D laser scanner

A mobile bar code scanner with two modes of operation: batch for uploading data to a host at a later time or real-time capture and transmission to a host application via a wireless Bluetooth connection to smartphones, PDAs and laptops.

Long battery life

A 24-hour batch/12-hour Bluetooth mode battery life ensures well over single shift scanning performance on a charge.

Simple two button design

Easy to hold and use — almost no training required.

Small and lightweight

Fits in a pocket or on a lanyard and weighs only 2.45 oz/70 gm.

Easy to integrate with a host device

Batch USB connectivity or wireless Bluetooth enables compatibility with virtually any host device.

Enable anywhere anytime cost-effective mobile 1D laser scanning

The innovative Motorola CS3000 Series enables enterprises to easily implement 1D laser scanning where either mobility or the cost and size of a traditional scanning device is an inhibitor. The tiny device is affordably priced and fits in a pocket or on a lanyard. The CS3000 can be utilized in standalone mode for the batch scanning of bar codes, while the CS3070 offers batch mode as well as real-time bar code data transmission to a host application via a wireless Bluetooth® connection to smartphones, laptops and more. Managing the data in batch mode is easy. Once connected to a host, the batch data can be configured for automatic transfer to an application. Since captured scans are placed in a user-definable standard ASCII file type, the information can be easily utilized to populate order forms, spreadsheets and inventory lists. The result is a new level of affordability for 1D scanning — and the ability to streamline, error proof and simplify more business processes.

Motorola signature ergonomics ensure user comfort and ease of use

The easy to use CS3000 Series requires virtually no training to operate. The highly intuitive simple 2-button interface makes scanning easy. In addition, grooves that guide hand and fingers into the most

comfortable scanning position combine with soft rubber trigger buttons to bring comfort to the most scan intensive tasks.

Enterprise class capacity, reliability and total cost of ownership (TCO)

The large memory capacity allows workers to capture over a million bar codes, providing ample support for the largest batch operations. The non-volatile memory ensures that batch data is retained. Built-in business durability provides a low TCO, IP40 sealing, a 4 ft./1.2 m drop specification and the ability to survive 500 1.64 ft./0.5 m consecutive tumbles combine to ensure dependable operation. And a 24-hour batch/12-hour Bluetooth mode battery cycle time insures well over single shift scanning performance on a charge.

Best-in-class high performance scanning

The integrated SE955 scan engine delivers Motorola's world-renowned scanning quality and reliability. The wide working range provides extraordinary application flexibility, allowing users to capture bar codes from near contact to as far as 45 in./114.3 cm away, in virtually any lighting condition. Aggressive performance enables the capture of even damaged and poor quality bar codes. And a time stamp can be automatically appended to each batch scan, providing additional business intelligence.
