

Chapter 2

The Position Classification Plan

2.1 The Position Classification Plan

The Position Classification Plan (PCP) consists of occupational services, occupational groups, classes in series, specifications or written descriptions of the classes and the rules and procedures for the administration and maintenance of the Plan.

2.2 Concepts of Position Classification

2.2.1 The position is the basic unit of an organization. It is a set of current duties and responsibilities assigned by competent authority to be performed by an individual either on a full-time or a part-time basis. It may be filled or vacant.

2.2.2 Positions are grouped by class on the basis of similarity of kind and level of difficulty and responsibility of work.

2.2.3 As a general rule, only the duties and responsibilities of the position are considered in position classification and not the incumbent's qualifications, except teaching positions where the incumbent's education, relevant training and experience and other factors are considered.

2.3 Grouping of Classes Under the PCP

A class consists of all those positions having sufficiently similar duties, responsibilities and qualification requirements such that they can be given the same position title, salary grade, and for all administrative and compensation purposes, be treated alike. Example: Public Health Nurse I.

The classes in the PCP are grouped into the following:

2.3.1 Series

A series consists of one or more classes of positions which are similar as to specialized line of work, arranged by level of difficulty and responsibility. Example: Public Health Nurse. This series is composed of Public Health Nurse I, Public Health Nurse II and Public Health Nurse III.
