Computers And Caring Using Technology To Help Us Care

Lucy J Hood

Computers And Caring Using Technology To Help Us Care:

Computers and Caring Erik T. Mueller, 2015-05-15 How can we use technology to help us be more caring to the people around us and to ourselves This book presents solutions including point of performance systems that help us care in the moment training systems that teach us strategies for caring and reflection systems that help us analyze caring in our lives It reviews existing technological tools and products to support caring It includes sample code and a case base of how to be caring in forty eight common situations

Fundamentals of Nursing E-Book Barbara L Yoost, Lynne R Crawford, 2019-01-23 Yoost and Crawford's Fundamentals of Nursing is back for a second edition encore The text that made its name by focusing on simple language and active learning continues its focus on helping you truly understand apply and retain important nursing information and concepts Using a warm and conversational style this new second edition guides you towards a basic understanding of the nursing profession and then logically progresses through the nursing process and into the safe and systematic methods of applying care Each chapter features realistic and complex case studies and critical thinking exercises woven throughout the content to help you continually apply what you've learned to actual patient care A conceptual care mapping approach created by Yoost and Crawford themselves further your ability to make clinical judgments and synthesize knowledge as you develop plans of care after analyzing and clustering related patient assessment data All of this paired with a wealth of student friendly learning features and clinically focused content offers up a fundamentally different and effective way for you to easily master the fundamentals of nursing

UNIQUE Warm friendly writing style slows down the pace of information to give readers time to critically think and master all fundamental concepts and skills **UNIQUE** Building block approach groups topics and concepts together thematically in the order needed for readers to build their knowledge **UNIQUE** Objective driven approach presents clearly defined numbered objectives that coordinate with all content and then wrap up with Objective Summaries **UNIQUE** Active learning activities are incorporated throughout every chapter to help readers learn to apply chapter content to broader nursing concepts and realistic patient scenarios **UNIQUE** Conceptual care mapping is taught and used throughout the text in conjunction with the Conceptual Care Map Creator **UNIQUE** Emphasis on QSEN reinforces the Quality and Safety Education for Nurses competencies including patient centered care teamwork and collaboration evidence based practice quality improvement safety and informatics Special feature boxes cover the areas of diversity consideration evidence based practice informatics patient education healthy literacy health assessment questions interprofessional collaboration and delegation ethical and legal practice home care considerations safe practice alerts QSEN critical thinking exercises and nursing care guidelines **NEW** Interprofessional collaboration and delegation content appears throughout the text along with new IPE activities that are integrated into the Evolve resources **NEW** **UNIQUE** Review and exam questions tied to learning objectives use a building block style approach that starts at lower Bloom's taxonomy levels in early chapters and builds to more complex levels as readers acquire more knowledge **NEW**

Emphasis on assignment and delegation covers the differences between them and how and when they re appropriate for an RN NEW Content on complementary therapies has been integrated throughout the text to reflect the changes to the NCLEX exam NEW Additional information has been added in the areas of HCAHPS Health Literacy Patient Education Drugs of Abuse Zika Ebola and more *Gender, Health and Information Technology in Context* E. Balka,E. Green,F. Henwood,2009-10-09

This volume breaks new ground by asking how our understandings of gender can be informed by exploring the socio technical relations of ICTs in health care and how far an appreciation of the ways in which gender works can inform and improve our understanding of how ICTs are being developed implemented and used in health care contexts **Summary of Alone Together by Sherry Turkle** QuickRead,Lea Schullery, Why We Expect More from Technology and Less from Each Other Today it s easier than ever to connect with another person Thanks to social media apps like Facebook we have opened ourselves up to become available at all hours of the day While this makes people stay connected virtually our modern lives are making us less connected as we no longer connect with physical people but simulations of them And not only is technology providing us with an endless network of people but it is also equipping us with robots who can do more than just take on mindless or dangerous tasks Now robots are providing humans with care and demanding that we care for them In Alone Together author Sherry Turkle explores the power of these new technologies and shares both sides of today s digital culture As you read you ll learn how robots can be therapeutic for the elderly why being constantly connected leads to stress and why people use virtual avatars to cope with the stresses of life Do you want more free book summaries like this Download our app for free at <https://www.QuickRead.com> App and get access to hundreds of free book and audiobook summaries DISCLAIMER This book summary is meant as a preview and not a replacement for the original work If you like this summary please consider purchasing the original book to get the full experience as the original author intended it to be If you are the original author of any book on QuickRead and want us to remove it please contact us at hello@quickread.com

The Ethic of Care: A Moral Compass for Canadian Nursing Practice (Revised Edition) Kathleen Stephany,2020-02-04 There is an increased use of technology and informatics heavier workloads and constant changes in the way in which disease processes are managed Yet when compared with other health professionals nurses still spend a great deal of time in direct contact with patients and clients They stay at the bedside listen to their stories give comfort and advocate The Ethic of Care A Moral Compass for Canadian Nursing Practice is unique from other nursing ethics textbooks in several key ways The book adds a heightened dimension to the already rich knowledge in the field of applied nursing ethics and the ethic of care The author argues that the ethic of care or the moral imperative to act justly be the guiding compass for everything that nurses do It is with passion and conviction that nurses are encouraged to embody the ethic of care as a lived virtue Nurses are also inspired to be the leaders of tomorrow by working toward achieving accountability and sustainability in the Canadian publicly funded health care system and by effectively addressing social inequities At the end of each chapter

the author conveys real life case studies as derived from her experiences as a critical care nurse psychiatric nurse clinician and former Coroner These vignettes bring the subject to life and serve as a means for applying newly acquired ethical knowledge The aim of this book is to inspire nurses to be as skillful and compassionate as they can be so that they will leave every encounter with their clients better than when they first arrived The book attempts to inspire nurses to be ethical leaders for social change at the patient client community and global level This revised edition of the book includes additional information about trauma informed care to combat systemic racism and improve the health outcomes for Indigenous people ethics gender and sexual orientation is dealt with in an inclusive and sensitive way and a new Code of Conduct has been included

Key Concepts in Early Childhood Education and Care Professor Cathy Nutbrown, 2005-11-15 In this engaging text author Dr Cathy Nutbrown a leading academic in early childhood education identifies and explains key terms and practices central to the work and study of early childhood in this accessible reference text *Key Concepts in Early Childhood Education and Care* is a must read for practitioners working with children from birth to the end of the foundation stage and for students following courses in early childhood education and care It details key issues identified in a survey of over 300 practitioners in the field and provides reading and reference sources to assist practitioners and students in identifying further material to support their work

Advances in Home Care Technologies IOS Press, 2012-10-10 An ageing population is burdening social and healthcare services around the world and this problem is likely to get worse as the percentage of older people continues to rise Many governments are already responding to this challenge and a key element in their strategies is the development and deployment of computer based telecare and telehealth technologies to support care at home in a cost effective manner Human involvement in care continues to be central but home care technologies can offer reassurance and support routine aspects to the benefit of all concerned This book provides an up to date overview of key advances in the relevant technology with an in depth examination of the latest research in various home care technologies by experts in the field The book mainly discusses the results of the Mobilising Advanced Technologies for Care at Home MATCH project co ordinated by the University of Stirling in Scotland but work on related projects is also included The book will be of interest to all researchers and practitioners in the fields of telecare and telehealth policymakers in these areas and providers of social and healthcare with an interest in technology

Without Compassion, There Is No Healthcare Brian D. Hodges, Gail Paech, Jocelyn Bennett, 2020-11-18 New technologies are transforming healthcare work and changing how patients interact with healthcare providers As artificial intelligence systems robotics and data analytics become more sophisticated some clinical tasks will become obsolete and others will be reconfigured While it is not possible to predict these developments precisely it is important to understand their inevitability and to prepare for the changes that lie ahead *Without Compassion There Is No Healthcare* argues that compassion must be upheld as the bedrock and guiding purpose of healthcare work Emerging technologies have the potential to subvert this purpose but also to enable and expand it creating

new conduits for compassionate care Cultivating these benefits and guarding against potential threats will require vigilance and determination from healthcare providers educators leaders patients and advocates The contributors to this book show the way forward bringing a diverse range of expertise to confront these challenges Avoiding platitudes and simple dichotomies they examine what compassion in healthcare means and how it can be practised now and in the uncertain future Without Compassion There Is No Healthcare is a call to action Drawing together a decade of evidence and insight generated by a community of leading scholars and practitioners committed to promoting compassionate care it offers steady principles and practices to steer the way through times of technological change Fundamentals: Perspectives on the Art and Science of Canadian Nursing david Gregory,Tracey Stephens,Christy Raymond-Seniuk,Linda Patrick,2019-01-03 Publisher s Note Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality authenticity or access to any online entitlements included with the product Master the unique multi faceted role of the Canadian nurse Confidently embark on a lifelong learning journey and prepare for the daily realities of Canadian nursing practice this with comprehensive Canadian focused text Developed specifically for your needs by talented Canadian students practicing nurses scholars and educators Fundamentals Perspectives on the Art and Science of Canadian Nursing 2nd Edition delivers an integrated understanding of nursing fundamentals through a continuum that guides you from one chapter to the next and from learning to understanding New Inter Professional Practice helps you achieve positive patient outcomes through effective collaboration with the healthcare team New Diversity Considerations alert you to important patient care considerations related to culture sexuality gender economics visible minorities and religious beliefs New NCLEX style questions at the end of each chapter test your retention and ready you for success on your exams Revised Skills chapters familiarize you with a wide variety of advanced skills to broaden your clinical capabilities Enhanced focus on LGBTQ related considerations demographic shifts in Canadian society end of life palliative care substance abuse crises and refugee communities helps you ensure confident care across diverse Canadian populations Case Studies place chapter content in a realistic context for the most practical understanding Think Boxes encourage critical thinking and challenge you to apply your knowledge to different situations Through the Eyes features familiarize you with patients perspectives to help you provide thoughtful and effective care interventions Research equips you with the latest and most relevant Canadian healthcare findings based on clinical evidence Critical Thinking Case Scenarios strengthen your clinical focus and critical thinking through real life situations *Consumer-Centered Computer-Supported Care for Healthy People* H.-A. Park,P.J. Murray,C. Delaney,2006-06 Intended for nurses and informatics experts working with informatics applications in nursing care administration research and education This book s theme Consumer Centered Computer Supported Care for Healthy People emphasizes the central role of the consumer and the function of information technology in health care
