Concept Review Lifetime Health Reproduction:

Textbook of Contraception, Sexual and Reproductive Health Johannes Bitzer, Tahir A. Mahmood, 2024-01-25 The purpose of sexual and reproductive healthcare should be the enhancement of personal relationships and a healthy sex life and not merely counselling and care related to procreation or sexually transmitted infections Providing practical and evidence based guidance this textbook follows the curriculum of the joint EBCOG and ESCRH examination in Contraception and Sexual and Reproductive Health Coverage is comprehensive allowing readers to gain an in depth understanding of each topic Written by trusted experts in the field topics covered include contraception infertility and sexual dysfunction sexual violence and STIs The text provides advice and practical tips for how to practice patient centred counselling and shared decision making Improving the relationship between the patient and healthcare provider leads to increased trust adherence of advice and more satisfactory treatment for the patient

Sexual and Reproductive Health of Adolescents with Disabilities

Tafadzwa Rugoho, France Maphosa, 2020-12-12 This book investigates various experiences of teaching sexual and reproductive health to adolescents with disabilities Following the adoption of the UNCRPD adolescents with disabilities still commonly suffer from widespread violation of their rights particularly concerning sexual and reproductive health often being viewed as either asexual or hypersexual Contemporary societies do not readily encourage the participation of these young people in conversations or decision making processes concerning their own sexual and reproductive health This book delves into such complex issues critically examining how global communities attempt to teach sexual and reproductive issues to adolescents with disabilities in the modern era

Sexual and Reproductive Health Paul Van Look, Kristian Heggenhougen, Stella R. Quah, 2011-01-10 This volume presents the highlights of current global thinking about sexual and reproductive health Major changes have taken place in the last 15 years in the way decision makers think about the subject and the manner in which programmes deliver comprehensive sexual and reproductive health services The turning point was the International Conference on Population and Development ICPD held in Cairo Egypt in 1994 ICPD was a watershed for several reasons First more than in any of the preceding United Nations population conferences the issue of population was clearly placed as being central to sustainable development Second the narrow focus on population growth the population bomb which had been a neo Malthusian concern and preoccupation ever since the Club of Rome published its 1972 report Limits to Growth was replaced by the comprehensive concept of sexual and reproductive health Third and linked to the definition and introduction of the reproductive health concept was the strong call for a paradigm shift away from a policy environment driven by demographic considerations sometimes to the point of using coercion in family planning services in order to reach demographic targets to an environment that recognized the right of individuals to make their own choices And last but not least ICPD as well as the Fourth World Conference on Women FWCW held the following year in Beijing People's Republic of China strongly emphasized that the rights of women and men to good sexual and reproductive health are firmly grounded in universal human rights Provided by publisher
