pupils in various schools for the blind in England and Scotland and in 1920 he published a Binet Scale for the Blind and a Provisional Point Scale for the Blind building upon the work of Irwin and Haines Systematic routine testing with Irwin's adaptation had also been started in 1916 by Miss Edith M Taylor at Perkins Institution for the Blind in Watertown Massachusetts and by Miss Katherine Roesse at the Pennsylvania Institution for the Instruction of the Blind in Overbrook Philadelphia During the next few years all the pupils in eight other residential schools were tested so that by the end of 1922 the Irwin adaptation had been given to more than 1 600 subjects with defective vision The data thus accumulated seemed to justify an attempt to standardize the tests and to distribute a Guide for the use of competent persons in schools and clinics where it might be necessary to examine children who had not vision enough to take the Binet tests in their ordinary form About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
