it as much as we created it **\$20 Per Gallon** Christopher Steiner,2009-07-15 An extraordinarily insightful and thought provoking look at how our society and culture are going to change and change rapidly as the price of gasoline heating oil and all other everyday consumer products that are derived from oil continue to escalate Imagine an everyday world in which the price of gasoline and oil continues to go up and up and up Think about the immediate impact that would have on our lives Of course everybody already knows how about gasoline has affected our driving habits People can't wait to junk their gas guzzling SUVs for a new Prius But there are more not so obvious changes on the horizon that Chris Steiner tracks brilliantly in this provocative work Consider the following societal changes people who own homes in far off suburbs will soon realize that there's no longer any market for their houses reason nobody wants to live too far away because it's too expensive to commute to work Telecommuting will begin to expand rapidly Trains will become the mode of national transportation as it used to be as the price of flying becomes prohibitive Families will begin to migrate southward as the price of heating northern homes in the winter is too pricey Cheap everyday items that are comprised of plastic will go away because of the rising price to produce them plastic is derived from oil And this is just the beginning of a huge and overwhelming domino effect that our way of life will undergo in the years to come Steiner an engineer by training before turning to journalism sees how this simple but constant rise in oil and gas prices will totally restructure our lifestyle But what may be surprising to readers is that all of these changes may not be negative but actually will usher in some new and very promising aspects of our society Steiner will probe how the liberation of technology and innovation triggered by climbing gas prices will change our lives The book may start as an alarmist's exercise but don't be misled The future will be exhilarating Tripping the Light Fantastic Andrew Fraser,2016-06-10 Nabbing flights for less than a fiver Andrew Fraser took off on a month long jaunt around ten European cities for 144 In this entertaining account of his trip he not only describes what he saw but also how he did it coaching aspiring travellers in how to create their own dream travel itineraries on flights which cost less than an airport latte Join him on a bargain journey to some of Europe's weirdest least visited backwaters while also learning how to plan a ten city adventure of your own Andrew Fraser travelled 6 928 miles at an average cost of 2p per mile Now you can too This unique title the only one available that explains how to travel so far for so little takes in some of Europe's least discovered cities including Skopje Girona Thessaloniki Gdansk Warsaw and Wroclaw as well as giving an entertaining overview of some more familiar places such as Barcelona Rome and Brussels It tells you how to book secret five star hotels for three star prices with no mystery about where you are going to stay how to travel the world cheaply from your local airport and how to save a fortune and create an adventure by abandoning the notion of the linear return flight Uncovering the little known travel gems which you can fly to for under a tenner it is also an often surreal idiosyncratic and funny account of one man's adventures on the move from attending an octopus autopsy in Barcelona to unearthing uncomfortable secrets in Europe's new Capital of Culture and discovering hip Warsawian apartments which straddle the worlds of Molotov and

Madonna What's more it's a journey in search of culture gastronomy and history and on occasions the seamier side of life in some of Europe's most thrilling but least known cities Andrew Fraser is former Travel Editor and Deputy Editor of Attitude magazine and former Chief Writer of OK Magazine He has had a love of the obscure a love of bargains and a love of travel since he was a strange eight year old boy locked in his bedroom obsessing over maps of Narnia esque towns cities and regions on the red side of the European map which he was told he would never be able to visit When the Berlin wall fell in 1989 he rushed to Prague Bratislava and Budapest where he enjoyed the greatest adventure of his life so far costing little more than pennies Now the internet and low cost airlines have brought back those halcyon days of cheap travel bliss and Andrew Fraser's mission in life is to transport you to places beyond your wildest dreams for less than the cost of your airport latte Come join him
