Mitrašinović, Vikas Mehta, 2021-03-30 Recent global appropriations of public spaces through urban activism public uprising and political protest have brought back democratic values beliefs and practices that have been historically associated with cities Given the aggressive commodification of public resources public space is critically important due to its capacity to enable forms of public discourse and social practice which are fundamental for the well being of democratic societies Public Space Reader brings together public space scholarship by a cross disciplinary group of academics and specialists whose essays consider fundamental questions What is public space and how does it manifest larger cultural social and political processes How are public spaces designed socially and materially produced and managed How does this impact the nature and character of public experience What roles does it play in the struggles for the just city and the Right to The City What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs desires and aspirations of individuals and communities alike What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work And what are the futures of public space in the face of global pandemics such as COVID 19 The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space Public Space Unbound Sabine Knierbein, Tihomir

Videman, 2018-03-15 Through an exploration of emancipation in recent processes of capitalist urbanization this book argues the political is enacted through the everyday practices of publics producing space This suggests democracy is a spatial practice rather than an abstract professional field organized by institutions politicians and movements Public Space Unbound brings together a cross disciplinary group of scholars to examine spaces conditions and circumstances in which emancipatory practices impact the everyday life of citizens We ask How do emancipatory practices relate with public space under post political conditions In a time when democracy solidarity and utopias are in crisis we argue that productive emancipatory claims already exist in the lived space of everyday life rather than in the expectation of urban revolution and future progress
