Capitalisms Last Stand Deglobalization In The Age Of Austerity:

Capitalism's Last Stand? Walden Bello, 2013-06-13 Walden Bello is the world's leading no nonsense revolutionary Naomi Klein author of *The Shock Doctrine*. In this eye opening and often scathing book Walden Bello provides a forensic dissection of contemporary capitalism's multiple crises. Trenchant but constructive Bello's analysis of the collapse of the global real economy covering such issues as the Wall Street meltdown, the disintegration of the Greek economy and the rise of China emphasizes the ever more pressing need to engage in a radical process of deglobalization towards a decentralized pluralistic world system. Only then will we be able to construct a fairer and more equitable society. A stirring call to arms for all those interested in global economic justice.

A Research Agenda for Economic Geography Yuko Aoyama, Daniel Haberly, Rory Horner, Seth Schindler, 2025-05-14 This forward thinking Research Agenda for Economic Geography Reframing 21st Century Capitalism focuses on contemporary issues in globalization, platformization, climate change and geopolitics. Chapters analyse micro and macro economic processes and propose future research agendas.

Revenge Capitalism Max Haiven, 2020-05-20 Capitalism is in a profound state of crisis. Beyond the mere dispassionate cruelty of ordinary structural violence it appears today as a global system bent on reckless economic revenge. Its expression found in mass incarceration, climate chaos, unpayable debt, pharmaceutical violence and the relentless degradation of common life. In *Revenge Capitalism* Max Haiven argues that this economic vengeance helps us explain the culture and politics of revenge we see in society more broadly. Moving from the history of colonialism and its continuing effects today, he examines the opioid crisis in the US, the growth of surplus populations worldwide and unpacks the central paradigm of unpayable debts both as reparations owed and as a methodology of oppression. *Revenge Capitalism* offers no easy answers but is a powerful call to the radical imagination.

After '08 Stephen McBride, Rianne Mahon, Gerard W. Boychuk, 2016-08-04 The 2007-08 financial crisis marked a turning point for social policy. World leaders were forced to

take a position Should they entrench neo liberal policies in response to the crisis Or should they implement alternative measures to challenge economics as usual After 08 examines how global institutions such as the World Bank International Monetary Fund and International Labour Organization as well as nation states around the world responded to the crisis Comparing the experience of Europe Asia Africa Latin America and North America contributors gauge the extent to which the neo liberal landscape has shifted since the onset of the financial crisis and explore the directions social policy has taken Did the response to the crisis follow a similar trajectory across countries and regions Or did the diversity in national experiences produce a diversity of policy responses And if so where did alternatives to neo liberalism emerge Crises of Imagination, Crises of Power Max Haiven, 2014-03-13 Today when it seems like everything has been privatized when austerity is too often seen as an economic or political problem that can be solved through better policy and when the idea of moral values has been commandeered by the right how can we re imagine the forces used as weapons against community solidarity ecology and life itself In this stirring call to arms Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable Looking at the decline of the public sphere the corporatization of education the privatization of creativity and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements Haiven provides a powerful argument for creating an anti capitalist commons Capitalism is not in crisis it is the crisis and moving beyond it is the only key to survival Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond it **Global-Local Tradeoffs, Order-Disorder**

Consequences Imtiaz A. Hussain, 2022-03-31 In this book ten substantive chapters examine how collisions between technological developments globalizing forces and thickening populist pressures localizing dynamics constantly keep reinventing the state in unforeseen and unpredictable ways We learn of how international organizations have fared and to what extent grass roots grumbles have impacted big picture developments in quite diverse parts of the world Just placing unfolding crises under the microscope cannot but generate policy solving observations Treated in corresponding order these crises revolve around adjusting international institutions absorbing current populist outbursts shifting from peacekeeping to peacemaking spying in the global south absorbing displaced persons Rwandan land reform pandemic and RMG readjustments Bangladesh s democratic transition Rohingya Syrian refugees and Mexico s 1990s liberalization Though overarching observations in the book accent state strength battling with state porosity the downward spiraling of global order and the simple lack of any controlling mechanism against globalizing localizing dynamics in the trenches of everyday life being matched by continued uncertainty on the analytical plane **Comparative Studies on Pandemic Control**

Policies and the Resilience of Society Simon X. B. Zhao, Kam Tong Chan, Selçuk Çolakoğlu, Qiaoyun Zhang, Bo Yan, 2023-03-29 This book documents and analyses the differentiated control policies the determinant factors behind social resilience and international relations during the pandemic from a comparative perspective in a facts based data supporting

manner The intermittent outbreak of cases public sentiments after long anxiety questions over the efficacy of vaccines have forced governments as well as the public to rethink differing approaches and policies in the combat against not just COVID but the delta variant In this context this book establishes itself as a timely product perhaps the first of its kind to provide a widely covered individual country based observation of policies with an emphasis on multidimensional determinant factors behind the policies A comparative study of social resilience during the pandemic constitutes another highlight of the book The different policies tested social resilience differently in parameters such as mortality rates vaccination coverage social mobility travel arrangements trust in government and general human development Above and beyond observations and analyses at local and national levels this book expands its scope to incorporate international relations contemplating over the impacts of the pandemic on international relations power shifts and new world global orders crystallized in the indisputable rise of China

Sustainable Development of Denmark in the World, 1970-2020 Bo Fritzboeger, 2022-05-24 This book provides a holistic overview of the history of sustainable development in Denmark over the last fifty years covering a host of issues central to the Sustainable Development Goals SDGs ending poverty ensuring inclusive and equitable education reducing inequality making cities and settlements inclusive safe and resilient and fostering responsible production and consumption patterns to name a few It argues for a new framework of sustainability history one that is truly global in outlook As such it explores what truly global sustainable development would look like It considers how economic growth has been the driver for prosperity in the global north and considers whether sustainable development and continued economic growth are irreconcilable and what the future of sustainable development initiatives in Denmark might look like
