Unity in Diversity Lynne Bowker, Michael Cronin, Dorothy Kenny, Jennifer Pearson, 2016-04-08 Translation studies as a discipline has grown enormously in recent decades Contributions to the discipline have come from a variety of fields including machine translation history literature philosophy linguistics terminology signed language interpreting screen translation translation pedagogy software localization and lexicography There is evidently great diversity in translation studies but is there much unity Have the different branches of translation studies become so specialized that they can no longer talk to each other Would translation studies be strengthened or weakened by the search for or the existence of unifying principles This volume brings together contributions from feminist theory screen translation terminology interpreting computer assisted translation advertising literature linguistics and translation pedagogy in order to counter the tendency to partition or exclude in translation studies Machine translation specialists and literary translators should be found between the same book covers if only because the nomadic journeying of concepts is often the key to intellectual discovery and renewal Celebrating our differences does not mean ignoring what we have in common Unity in Diversity offers a valuable overview of the current state of translation studies from both theoretical and practical perspectives and makes an important contribution to debates on the future direction of translation studies

Literature in Vienna at the Turn of the Centuries Ernst Grabovszki, James N. Hardin, 2003 Insightful essays on the striking resemblances between the Viennese literary cultural scene in 1900 and 100 years later This book of new essays by widely published scholars from the United States Great Britain Germany and Austria examines the artistic social political and historical continuities and discontinuities in Viennese literature during the periods around 1900 and 2000 It takes its impetus from the idea that both turns of the century are turning points in the development of Austrian literature and history The essays show that in both periods literature not only reflects societal conditions and political issues but also serves to criticize them Ernst Grabovszki's introduction sets the context of literature in Vienna in 1900 and 2000 and is followed by essays exploring the following topics bearing on the city's literature across the two periods writing about Vienna Janet Stewart art and architecture Douglas Crow psychoanalysis and the literature of Vienna Thomas Paul Bonfiglio poetry in Vienna from Hofmannsthal to Jandl Rüdiger Görner Austrian cinema culture Willy Riemer Austrian Jewish culture Hillary Hope Herzog and Todd Herzog Austrian women's writing Dagmar C. Living on Paper Iris Murdoch, 2016-01-12 For the first time novelist Iris Murdoch's life in her own words from girlhood to her last years Iris Murdoch was an acclaimed novelist and groundbreaking philosopher whose life reflected her unconventional beliefs and values But what has been missing from biographical accounts has been Murdoch's own voice her life in her own words *Living on Paper* the first major collection of Murdoch's most compelling and interesting personal letters gives for the first time a rounded self portrait of one of the twentieth century's greatest writers and thinkers With more than 760 letters fewer than forty of which have been published before the book provides a unique chronicle of Murdoch's life from her days as a schoolgirl to her last years The result is the most important book about Murdoch in more than a decade The letters show a great mind at work struggling with philosophical problems trying to bring a difficult novel together exploring spirituality and responding pointedly to world events They also reveal her personal life the subject of much speculation in all its complexity especially in letters to lovers or close friends such as the writers Brigid Brophy Elias Canetti and Raymond Queneau philosophers Michael Oakeshott and Philippa Foot and mathematician Georg Kreisel We witness Murdoch's emotional hunger her tendency to live on the edge of what was socially acceptable and her irreverence and sharp sense of humor We also learn how her private life fed into the plots and characters of her novels despite her claims that they were not drawn from reality Direct and intimate these letters bring us closer than ever before to Iris Murdoch as a person making for

an extraordinary reading experience **Women in the Metropolis** Katharina von Ankum, 2023-09-01 Bringing together the work of scholars in many disciplines *Women in the Metropolis* provides a comprehensive introduction to women's experience of modernism and urbanization in Weimar Germany. It shows women as active participants in artistic, social and political movements and documents the wide range of their responses to the multifaceted urban culture of Berlin in the 1920s and 1930s. Examining a variety of media ranging from scientific writings to literature and the visual arts, the authors trace gendered discourses as they developed to make sense of and regulate emerging new images of femininity. Besides treating classic films such as *Metropolis* and *Berlin Symphony of a Great City*, the articles discuss other forms of mass culture including the fashion industry and the revue performances of Josephine Baker. Their emphasis on women's critical involvement in the construction of their own modernity illustrates the significance of the Weimar cultural experience and its relevance to contemporary gender, German film and cultural studies.

It shows women as active participants in artistic soci **Carnap and the Vienna Circle** Ramon Cirera, 2022-06-08 It is not inaccurate to say that from 1928 to 1936 Carnap was a member of the Vienna Circle even though during this period he was not always present in Vienna. During this years which spanned roughly the period from the *Aufbau* to *Testability and Meaning* he worked or at least discussed frequently with the members of the group. However traditionally it has been difficult to form a proper view of the development of Carnap's ideas throughout this period mainly because of three errors which have persisted in the commonly accepted historical interpretation of Carnap and the Vienna Circle: emphasis on the Circle as a unit rather than a collective of individuals; insistence on verificationism as the defining characteristic of Logical Positivism; and the systematic abstraction of the work of the Circle from its historical context. As against this historically distorted image, this book argues for an alternative reading evaluating the different influences on Carnap of Schlick, Wittgenstein, Neurath and Popper, and making sense of Carnap's evolution from physicalism to phenomenalism and the syntactic point of view.

[The Creation and Destruction of Value](#) Harold James, 2012-10-22 Harold James examines the vulnerability and fragility of processes of globalization both historically and in the present. This book applies lessons from past breakdowns of globalization, above all in the Great Depression, to show how financial crises provoke backlashes against global integration.

Vienna Is Different Hillary Hope Herzog, 2011-10-01 Assessing the impact of fin de siècle Jewish culture on subsequent developments in literature and culture, this book is the first to consider the historical trajectory of Austrian Jewish writing across the 20th century. It examines how Vienna, the city that stood at the center of Jewish life in the Austrian Empire and later the Austrian nation, assumed a special significance in the imaginations of Jewish writers as a space and an idea. The author focuses on the special relationship between Austrian Jewish writers and the city to reveal a century-long pattern of living in tension with the city, experiencing simultaneously acceptance and exclusion, feeling
