Diego Rivera Murals For The Museum Of Modern Art:

Diego Rivera Leah Dickerman, Diego Rivera, Anna Indych-López, Museum of Modern Art (New York, N.Y.), 2011 In 1931 Diego Rivera was the subject of The Museum of Modern Art's second monographic exhibition which set attendance records in its five week run The Museum brought Rivera to New York six weeks before the opening and provided him a studio space in the building There he produced five portable murals large blocks of frescoed plaster slaked lime and wood that feature bold images drawn from Mexican subject matter and address themes of revolution and class inequity After the opening to great publicity Rivera added three more murals taking on New York subjects through monumental images of the urban working class Published in conjunction with an exhibition that brings together key works from Rivera's 1931 show and related material this vividly illustrated catalogue casts the artist as a highly cosmopolitan figure who moved between Russia Mexico and the United States and examines the intersection of art making and radical politics in the 1930s Diego Rivera Diego Rivera, Museum of Modern Art (New York, N.Y.), 2012 **Diego Rivera's America** James Oles, 2022-07-19 Diego Rivera's America revisits a historical moment when the famed muralist and painter more than any other artist of his time helped forge Mexican national identity in visual terms and imagined a shared American future in which unity rather than division was paramount This volume accompanies a major exhibition highlighting Diego Rivera's work in Mexico and the United States from the early 1920s through the mid 1940s During this time in his prolific career Rivera created a new vision for the Americas on both national and continental levels informed by his time in both countries Rivera's murals in Mexico and the U S serve as points of departure for a critical and contemporary understanding of one of the most aesthetically socially and politically ambitious artists of the twentieth century Works featured include the greatest number of paintings and drawings from this period reunited since the artist's lifetime presented alongside fresco panels and mural sketches This catalogue serves as a guide to two crucial decades in Rivera's career illuminating his most important themes from traditional markets to modern industry and devoting attention to iconic paintings as well as works that will be new even to scholars revealing fresh insights into his artistic process Published by the San Francisco Museum of Modern Art in association with University of California Press Exhibition dates San Francisco Museum of Modern Art July 16 2022 January 1 2023 Crystal Bridges Museum of American Art Bentonville Arkansas March 11 July 31 2023 **Latin American Art at The Museum of Modern Art** Miriam M. Basilio Gaztambide, 2025-06-13 This book sheds light on an as yet unstudied aspect of The Museum of Modern Art's MoMA preeminent role in establishing the definition of the problematic term Latin American art in the United States from the 1930s to the present through its collection displays In examining the shifting categorization of Latin American works according to stylistic and geographic taxonomies we gain a greater understanding of the organization of the Museum's collections as a whole during the 1940s and 1950s This book is the first to document these institutional precedents crucial for the understanding of the articulation of a Modernist canon and its contested legacy today The MoMA is widely recognized as

the preeminent institution that defined 20th century art through its collection shaping our understandings of the history of art with its hierarchies and exclusions as they sediment over time MoMA's holdings of art from Latin America shed light on a key period when the stylistic categories that have since come to be accepted by many today as the Modernist canon developed MoMA's collection displays suggest ways in which artists from areas of the world formerly excluded can be incorporated within today's increasingly global museums MoMA's approach may be compared to initiatives adopted by several museums since the 2000s creating geographically defined curatorial positions as a way to redress gaps in collecting art from Latin America and other areas of the world In this book author Miriam M Basilio Gaztambide offers a closer study of the history of collection displays as a means to understand canon formation in modern art museums This work will be of interest to those researching Latin American modern and contemporary art and curatorial and museum studies
