Die mikronesischen Kolonien aus ethnologischen Gesichtspunkten Adolf Bastian, 2025-07-05 Unveränderter Nachdruck der Originalausgabe von 1899 Der Verlag Antigonos spezialisiert sich auf die Herausgabe von Nachdrucken historischer Bücher Wir achten darauf dass diese Werke der Öffentlichkeit in einem guten Zustand zugänglich gemacht werden um ihr kulturelles Erbe zu bewahren *Signs in Society* Richard J. Parmentier, 1994-06-22 Richard Parmentier takes up Ferdinand de Saussure's challenge to study the life of signs in society by using semiotic tools proposed by Charles Sanders Peirce He studies how semiotic theory can illuminate highly complex social and cultural practices *The Sacred Remains* Richard J. Parmentier, 1987-11-05 At one level this book is a compilation of political traditions of Belau in Micronesia from the divine foundation of political systems to the present day It offers an analysis of the structures and dynamics of Belauan history identifying several forms of order and some of their potentials for change Also the author develops a critique of standard approaches to history in small scale societies He argues for a semiotic approach that recognizes the historical consciousness of actors in the society under study Host Bibliographic Record for Boundwith Item Barcode 30112107843754 and Others, 1907 *Hoarding New Guinea* Rainer F. Buschmann, 2023-07 Hoarding New Guinea provides a new cultural history of colonialism that pays close attention to the millions of Indigenous artifacts that serve as witnesses to Europe's colonial past in ethnographic museums Rainer F. Buschmann investigates the roughly two hundred thousand artifacts extracted from the colony of German New Guinea from 1870 to 1920 Reversing the typical trajectories that place ethnographic museums at the center of the analysis he concludes that museum interests in material culture alone cannot account for the large quantities of extracted artifacts Buschmann moves beyond the easy definition of artifacts as trophies of colonial defeat or religious conversion instead employing the term hoarding to describe the irrational amassing of Indigenous artifacts by European colonial residents Buschmann also highlights Indigenous material culture as a bargaining chip for its producers to engage with the imposed colonial regime In addition by centering an area of collection rather than an institution he opens new areas of investigation that include non professional ethnographic collectors and a sustained rather than superficial consideration of Indigenous peoples as producers behind the material culture Hoarding New Guinea answers the call for a more significant historical focus on colonial ethnographic collections in European museums
