Die Wege Schicksals Historischer German:

German literature pamphlets, 1920 Banditry, Chivalry, and Terror in German Fiction, 1790-1830 ... Agnes Genevieve Murphy, 1935 **Max Weber and German Politics, 1890-1920** Wolfgang J. Mommsen, 1990-07-25 A major work of German historiography this comprehensive account of Weber's political views and activities reveals that paradoxically Weber was at once an ardent liberal and a determined German nationalist and imperialist Wolfgang J Mommsen shows the important links between these seemingly conflicting positions and provides a critique of Weber's sociology of power and his concept of democratic rule First published in German in 1959 Max Weber and German Politics appeared in a revised edition in 1974 and became available in an English translation only in 1984 In writing this work Mommsen drew extensively on Weber's published and unpublished essays newspaper articles memoranda and correspondence *Metternich's German Policy, Volume I* Enno E. Kraehe, 2015-12-08 This volume follows Metternich's career up to the restoration of the Bourbons in France Originally published in 1963 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

German Refugee Historians and Friedrich Meinecke Gerhard A. Ritter, 2010-05-10 The book deals with the relationship between Friedrich Meinecke who is often considered to be the leading German historian of the first half of the twentieth century and several of his students who after the Nazi seizure of power were forced to emigrate because of their Jewish descent or their political views The letters published here to Meinecke from Hans Rothfels Dietrich Gerhard Hajo Holborn Felix Gilbert Hans Rosenberg and others show these scholars deep respect for their old teacher but also their growing distance from his historical interests and methods In a period of struggle between democracy and Nazi dictatorship the letters address the problems of emigration and remigration German Jewish and German American identity and historiography in both Germany and the United States A History of Twentieth-Century Germany Ulrich Herbert, 2019-08-15 Germany in the 20th century endured two world wars a failed democracy Hitler's dictatorship the Holocaust and a country divided for 40 years after World War II But it has also boasted a strong welfare state affluence liberalization and globalization a successful democracy and the longest period of peace in European history A History of Twentieth Century Germany provides a survey of German history during a century of extremes Ulrich Herbert sees German history in the 20th century as determined by two contradictory perspectives On one hand there are the world wars and great catastrophes that divide the country's history into two parts before and after 1945 Germany is the birthplace of radical ideologies of the left and right and the only country in which each ideology became the foundation of government This

pattern left its stamp on both the first and second halves of the century On the other hand the rise of modern industrial society led to decades of conflict over the social and political order regardless of which political system was in force Considering these contradictory developments Herbert tackles the questions of both the collapse in the first half of the century and the development from a post fascist ruined society to one of the most stable liberal democracies in the world in the latter half Herbert s analysis brings together wars and terror utopia and politics capitalism and the welfare state socialism and liberal democratic society gender and generations culture and lifestyles European integration and globalization The resulting book sets a standard by which historians of the period will be measured in the future **The Scientification**

of the "Jewish Question" in Nazi Germany Horst Junginger,2017-03-20 The Scientification of the Jewish Question in Nazi Germany describes the attempt of a considerable number of German scholars to counter the vanishing influence of religious prejudices against the Jews with a new antisemitic rationale As anti Jewish stereotypes of an old fashioned soteriological kind had become dysfunctional under the pressure of secularization a new more objective explanation was needed to justify the age old danger of Judaism in the present In the 1930s a new research field called Judenforschung Jew research emerged Its leading figures amalgamated racial and religious features to verify the existence of an everlasting Jewish problem Along with that they offered scholarly concepts for its solution German Liberalism and the Dissolution of the Weimar Party System, 1918-1933

Larry Eugene Jones,2017-10-10 Jones offers a detailed and comprehensive overview of the development and decline of the German Democratic party and the German People s party from 1918 to 1933 In tracing the impact of World War I the runaway inflation to the 1920s and the Great Depression of the 1930s upon Germany s middle class electorate the study demonstrates why the forces of liberalism were ineffective in preventing the rise of nazism and the establishment of the Third Reich Originally published in 1988 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Bismarck and the Development of Germany** Otto Pflanze,2020-11-10 This political

history of Germany assesses Bismarck s role in the events which paved the way for the catastrophes of the twentieth century showing how Bismarck first established the association between German nationalism Prussian militarism and Hohenzollern authoritarianism The author is completing a second volume The Period of Consolidation 1871 1890 Volume I has been awarded the McKnight Foundation Humanities Award *German Yearbook of International Law* ,1992
