[Resources in Education](#), 1998 [Interpreting Slavery with Children and Teens at Museums and Historic Sites](#) Kristin L. Gallas, 2021-09-26 Interpreting Slavery with Children and Teens offers advice examples and replicable practices for the comprehensive development and implementation of slavery related school and family programs at museums and historic sites Developing successful experiences school programs field trips family tours about slavery is more

than just historical research and some hands on activities Interpreting the history of slavery often requires offering students new historical narratives and helping them to navigate the emotions that arise when new narratives conflict with longstanding beliefs We must talk with young people about slavery and race as it is not enough to just talk to them or about the subject By engaging students in dialogue about slavery and race they bring their prior knowledge scaffold new knowledge and create their own relevance all while adults hear them and show respect for what they have to say The book s framework aims to move the field forward in its collective conversation about the interpretation of slavery with young audiences acknowledging the criticism of the past and acting in the present to develop inclusive interpretation of slavery When an organization commits to doing school and family programs on the topic of slavery it makes a promise to past and future generations to keep alive the memory of long silenced millions and to raise awareness of the racist legacies of slavery in our society today
