Capitalism From Below Markets And Institutional:

Capitalism from Below Victor Nee, Sonja Oppenheimer, 2012-06-19 Over 630 million Chinese escaped poverty since the 1980s the largest decrease in poverty in history Studying 700 manufacturing firms in the Yangzi region the authors argue that the engine of China's economic miracle private enterprise did not originate at the top but bubbled up from below overcoming initial obstacles set up by the government

Reform and Regulation of Economic Institutions in Afghanistan Haroun Rahimi, 2022-10-21 Taliban's return to power in August of 2021 caused everyone to ask why the two decades of institution building in Afghanistan failed This book investigates the root causes of failed reforms in an important area of reform trade and credit institutions It explains why the efforts to reform and regulate the economic institutions in Afghanistan failed and what we can learn from their failure It draws on more than eighty interviews with Afghan merchants business leaders money dealers and government officials in five major provinces of Afghanistan to identify the barriers to access to credit and to understand the performance of formal institutions banks and their informal counterparts This book finds that Afghan merchants were often unable to benefit from the offerings of formal institutions for three reasons a highly volatile business climate uncertain contract enforcement and an unsupportive property rights system Several informal institutions have emerged that alleviate some of the credit constraints on Afghan merchants These informal institutions include risk sharing trade credit operations money dealers short term working capital loans Gerawee and Sar qufli Although these informal institutions have helped Afghan merchants survive they are unable to support economic growth This book argues that countries like Afghanistan should solve their institutional dilemma by adopting an approach which the author calls Grounded Institutional Reform Using this approach a country would formalize existing informal institutions a development that would vastly increase their effectiveness While this book focuses on credit and trade in Afghanistan the analysis of formalizing the informal can easily be extended to solve other types of economic problems in similarly situated countries This book should be of great interest to scholars policymakers and development workers in the field of law finance and development

Corporate Bankruptcy Law in China Natalie Mrockova, 2021-01-28 This fascinating study uses qualitative and quantitative data and insights from interviews with judges lawyers government officials entrepreneurs bankers consultants and academics in China and abroad to provide a new perspective on the problems that have hindered the implementation of the Enterprise Bankruptcy Law in China and recent attempts at reform The analysis provides unique insights into China's business world and its interaction with the judicial and political system in China In addition the book also provides important information about how the Enterprise Bankruptcy Law affects foreign companies agencies and governments that are active in China The author draws on empirical data decided cases and her experience of how the law and surrounding practices deal with foreign stakeholders whose interests are affected by corporate bankruptcy in China The book will improve understanding of how China's corporate bankruptcy law has been used in practice what has limited its practical effectiveness

whether it is desirable for the law to be used more readily in China and the possible options for its reform *The Urbanization of People* Eli Friedman, 2022-06-07 Amid a vast influx of rural migrants into urban areas China has allowed cities wide latitude in providing education and other social services While millions of people have been welcomed into the megacities as a source of cheap labor local governments have used various tools to limit their access to full citizenship The *Urbanization of People* reveals how cities in China have granted public goods to the privileged while condemning poor and working class migrants to insecurity constant mobility and degraded educational opportunities Using the school as a lens on urban life Eli Friedman investigates how the state manages flows of people into the city He demonstrates that urban governments are providing quality public education to those who need it least school admissions for nonlocals heavily favor families with high levels of economic and cultural capital Those deemed not useful are left to enroll their children in precarious resource starved private schools that sometimes are subjected to forced demolition Over time these populations are shunted away to smaller locales with inferior public services Based on extensive ethnographic research and hundreds of in depth interviews this interdisciplinary book details the policy framework that produces unequal outcomes as well as providing a fine grained account of the life experiences of people drawn into the cities as workers but excluded as full citizens **Chinese Small Property** Shitong Qiao, 2017-10-19 Qiao demonstrates how an impersonal and unbounded market can operate without legal protection or enforcement of property and contract rights **Weapons Of The Rich. Strategic Action Of Private Entrepreneurs In Contemporary China** Thomas Heberer, Gunter Schubert, 2020-04-22 This book provides a fresh perspective on the political agency of private entrepreneurs in contemporary China Most Chinese scholarship describes this group as being politically acquiescent due to systematic co optation by the party state This book however argues that private entrepreneurs should be understood and analytically conceptualized as a strategic group that makes use of different formal and informal channels to safeguard and expand its interests though so far it has not challenged the current regime State business relations in contemporary China should thus be understood not in terms of mere clientelism but as a dynamic symbiosis in which private entrepreneurs contribute substantially to policy and institutional change This book is based on several years of comparative empirical fieldwork across China With its rich and unique qualitative data and insights this volume contributes significantly to our understanding of the political behaviour and impact of private entrepreneurs in contemporary China **World Scientific Reference On Innovation, The (In 4 Volumes)** , 2018-03-20 This multi volume set covers a wide range of topics on innovation which are all of great interest to academics policymakers university administrators state and regional economic development officials and students Two unique features of the volume are the large body of global evidence on innovation presented and its consideration of the following timely and important topics in innovation cybersecurity open innovation the globalization of R D and university technology transfer Innovation is a topic of great importance in many fields in business administration such as management strategy operations

management finance marketing and accounting as well as in numerous social science disciplines including economics sociology political science and psychology This volume fully reflects such interdisciplinary approaches Volume 1 provides extensive global evidence on university technology transfer and innovation partnerships Volume 2 is focused on the managerial and public policy implications of the globalization of R D Volume 3 presents state of the art theoretical and empirical evidence on open innovation Volume 4 is a comprehensive analysis of cybersecurity This set is essential reading for those who wish to have a comprehensive understanding of the antecedents and consequences of innovation **The Oxford Companion to the Economics of China** Shenggen Fan, S. M. Ravi Kanbur, Shang-Jin Wei, Xiaobo Zhang, 2014 99 entries written by leading China scholars Topics include The China Model Future Prospects Global Economy Trade Macroeconomics and Finance Urbanization Industry and Markets Agriculture Land Infrastructure and Environment Labour Wellbeing and Inequality Health and Education Gender Regional Divergence and Provincial studies **The SAGE Handbook of Organizational Institutionalism** Royston Greenwood, Christine Oliver, Thomas B. Lawrence, Renate E. Meyer, 2017-05-01 The SAGE Handbook of Organizational Institutionalism brings together extensive coverage of aspects of Institutional Theory and an array of top academic contributors Now in its Second Edition the book has been thoroughly revised and reorganised with all chapters updated to maintain a mix of theory how to conduct institutional organizational analysis and contemporary empirical work New chapters on Translation Networks and Institutional Pluralism are included to reflect new directions in the field The Second Edition has also been reorganized into six parts Part One Beginnings Foundations Part Two Organizations and their Contexts Part Three Institutional Processes Part Four Conversations Part Five Consequences Part Six Reflections **Compressed Development** D. Hugh Whittaker, Timothy Sturgeon, Toshie Okita, Tianbiao Zhu, 2020-09-15 This book proposes a new way to approach comparative international development by focusing on time and timing in economic and social development The UK industrialized over two centuries and then started to de industrialize in the late 1960s Today the most rapid developers experience aspects of industrialization and de industrialization simultaneously It is no longer clear that industrialization offers the path of growth it once did industrialization has become thin Demographic and social challenges that earlier developers faced sequentially now come at the same time Rapid growers experience compression most acutely but the spatial and temporal fusing of past and present is widespread affecting high middle and lower income countries alike Timing refers to the differences in historical periods in which development takes place The geopolitical institutional and technological environment for countries recently integrated into the global economy has been vastly different from that of the preceding postwar decades of embedded liberalism although it does contain echoes of the first globalization and first financialization a century ago The first era of liberalism did not end well and the second is similarly foundering on the rocks of nationalism and protectionism as it is being battered by a global pandemic The authors propose an interdisciplinary conceptual framework based on co evolving state market and organization technology dyads

which will help readers make sense of contemporary development across multiple societies sectors and geographies and provide a template for historical comparison
