That's My Story!: Drama for Confidence, Communication and Creativity in KS1 and Beyond Adam Power-Annand, 2024-03-25 The ability to communicate is an essential life skill for all children and young people and it underpins their social emotional and educational development If a child experiences a positive relationship with an adult listening carefully they are more likely to constructively share their thoughts feelings and their imaginative ideas That's My Story places children's imagined stories at the heart of their own development and

provides a joyful creative approach to support young children's personal and social development and to encourage their communication. In this book you will find tried and tested drama games and activities that support communication and well-being, all adaptable to complement your current practice. Guidance and advice on how to promote positive adult-child interactions. Examples of creative interventions that support children's communication development. A celebration of the joy that comes with carefully listening to children's own imagined stories. Those of us who work with children can sense a tangible connection between how young children feel and how they communicate. This essential and practical resource will be valuable reading for primary teachers, teaching assistants, speech and language therapists, and drama practitioners, as well as outreach and education departments of theatre companies and other arts organisations. **On the Subject of Values ...**

and the Value of Subjects: New thinking to guide schools through the curriculum Bridget Knight, 2022-12-02

Education is a values-based experience. Consciously or not, we are highly attuned to one another's values. We see time and again that the best schools are compelled and propelled by strong values which inspire and guide the creation of a meaningful context for learning and an aspirational ethos. However, values can often be submerged, overlooked, or ignored. By infusing our teaching with values, both explicit and implicit learning can serve a greater purpose, nourishing us as humans and deepening our experience. Drawing on the views and inspired teaching practice of a range of contributors, this book offers both the theoretical underpinning and practical examples to bring values to life in the classroom. It shows how each subject has a unique and valuable role and how a values-based culture generates a powerful climate for successful learning in every subject discipline. It is a bedside book that will bring joy and practical support to the many professionals who work from the heart and wish to touch the future. It offers validation to those teachers who deeply care about the subject disciplines they teach, ultimately making a difference to children, their lives, and their world. In our current educational context, this work is unashamedly people-oriented, future-thinking, and forward-facing. *EBOOK: Interactive Teaching in the*

Primary School Janet Moyles, Linda Hargreaves, Roger Merry, Fred Paterson, Veronica Esarte-Sarries, 2003-04-16. What is interactive teaching in primary classrooms? What do primary teachers and children do to interact effectively? Are there benefits in such interactions to both teaching and learning? A research partnership of tutors and teachers strives towards answers to these key questions. This book is the story of this intriguing and exciting research project. The authors examine the practical and theoretical aspects that are key to understanding and undertaking interactive teaching in primary classrooms. The project is unique in using its own interactive processes, Reflective Dialogues, to help teachers make sense of their own teaching. This process includes capturing and analysing classroom sessions on video, and cameos of these classroom interactions are discussed throughout the book. The research context is the Literacy Hour in Key Stages 1 and 2. This new title is key reading for academics, researchers, teacher educators, policymakers, and primary school teachers.

Self-Adaptive Software Robert Laddaga, Paul Robertson, Howard E. Shrobe, 2003-02-21. The 18 revised full papers

presented in this book together with an introductory survey were carefully reviewed and constitute the documentation of the Second International Workshop on Self adaptive Software IWSAS 2001 held in Balatonf red Hungary in May 2001 Self adaptive software evaluates its own behavior and changes it when the evaluation indicates that the software does not accomplish what it is intended to do or when better functionality or better performance is possible The self adaptive approach in software engineering builds on well known dynamic features familiar to Lisp or Java programmes and aims at improving the robustness of software systems by gradually adding new features of self adaption or autonomy
