Cnn Xenophobic Attack:

Xenophobia, Nativism and Pan-Africanism in 21st Century Africa Sabella Ogbobode Abidde, Emmanuel Kasonde Matambo, 2021-12-14 This edited volume systematically analyzes the connection between xenophobia nativism and Pan Africanism It situates attacks on black Africans by fellow black Africans within the context of ideals such as Pan Africanism and Ubuntu which emphasize unity The book straddles a range of social science perspectives to explain why attacks on foreign nationals in Africa usually entail attacks on black foreign nationals Written by an international and interdisciplinary team of scholars the book is divided into four sections that each explain a different facet of this complicated relationship Section One discusses the history of colonialism and apartheid and their relationship to xenophobia Section Two critically evaluates Pan Africanism as a concept and as a practice in 21st century Africa Section Three presents case studies on xenophobia in contemporary Africa Section Four similarly discusses cases of nativism Addressing a complex issue in contemporary African politics this volume will be of use to students and scholars interested in African studies African politics human rights migration history law and development economics *Interdependent Yet Intolerant* Robert Mandel, 2021-07-27 People everywhere are more dependent than ever on foreign migrants products and ideas and more xenophobic Intolerance and hate based violence is on the rise in countries from Hungary to South Africa threatening global security With *Interdependent Yet Intolerant* Robert Mandel explains why we live in an unexpectedly and increasingly hateful world why existing policies have done little to help and what needs to be done Through an in depth analysis of case studies from twelve diverse countries that have experienced violence between native citizens and foreign migrants Mandel finds that the interdependence of the current liberal international order does not breed mutual understanding between groups through increased contact but rather under specific conditions stimulates boomerang effects in the exact opposite direction And the very policy measures intended to decrease violence from heightened border enforcement intended to minimize instability to intergovernmental payoffs to other countries to keep foreigners away as in the EU only inflame intolerance and promote global insecurity Providing practical policy recommendations for managing identity based violence in an age of mass migration and globalization *Interdependent Yet Intolerant* calls on societies around the world to rethink their predominant notions of national identity and control *The Breadth of Gaia* D.R. Taylor, 2020-12-16 Is Gaia the living Earth fighting back Our postmodern world holds the Gaia hypothesis where environmental issues and ecological awareness have been put forth for discussion Climate change the greenhouse effect overpopulation a global water crisis nuclear energy endangered species and fossil fuels are part of the discourse of an ordinary twenty first century citizen Gaia s purpose might be in stopping us in our tracks with the virus depriving us of close social contact of travel and mass consumption as a result of the thousands of years humans have exploited the planet without counting the cost The natural ability of the environment to balance itself and the processes that disrupt the ecological cycles have contributed to the changes in the climate of our planet The need for

more natural resources has forced humans to infringe or destroy natural habitats thus exposing us to numerous pathogens The outbreak of Ebola MERS and other coronaviruses have been triggered by the transition from animal to human through the upset of natural habitats The speed from which the virus has spread has surprised many governments putting the economies and millions of people in serious danger The globe is in serious danger Torcello and Mann wrote an article titled Seeing the Covid 19 Crisis Is Like Watching a Time Lapse of Climate Change Will the Right Lessons Be Learned The reality is that the slower we respond the higher the death rate and economic loss

Gratuitous Angst in White America Deena A. Isom, 2023-12-19 *Gratuitous Angst in White America* presents a new criminological theory that explains the racialized experiences of white people Unlike orthodox traditions that assume whiteness as normative or progressive traditions that center the experiences of the marginalized and oppressed the theory of whiteness and crime flips those perspectives and turns a lens toward white people's lived experiences and the ideologies of whiteness The theory of whiteness and crime answers two overarching questions How does being white impact one's likelihood of engaging in deviant criminal and or violent behaviors And why are white people treated differently than other racial and ethnic groups by the criminal legal system Through the application of a critical whiteness perspective to criminology the theory of whiteness and crime is an intersectional and integrated framework that explains within and between group differences in negative behaviors and entanglements with the criminal legal system This book examines the racialized history of America to contextualize the current racial strife in society and inform a more nuanced theoretical approach to explaining disparities The reader will gain a socio historical understanding of the depths of the current divides and insight into how such are perpetuated and potentially dismantled Students will see connections between various theoretical traditions and an application of theory to current social conditions Researchers will acquire a new theoretical foundation and propositions to ground empirical work that will fill extensive gaps in the criminological literature And policy makers will see how oversights in understanding the depths of historical significance perpetuate and increase disparities and disadvantages which are counter to a pursuit of justice Written in a compelling and direct way this book will appeal to those in criminology sociology race and ethnic studies gender and sexuality studies political science cultural studies psychology criminal justice law and beyond *Gratuitous Angst in White America* is essential for those seeking a more complete understanding of the associations between race and crime and those who want to remedy those disparities In the end it is more than a new theory of crime it is a call to action for all willing to hear

Violence, Politics and Conflict Management in Africa Munyaradzi Mawere, Ngonidzashe Marongwe, 2016-09-01 This volume critically interrogates from different angles and dimensions the resilience of conflict and violence into 21st century Africa The demise of European colonial administration in Africa in the 1960s wielded fervent hope for enduring peace for the people of Africa Regrettably conflict alongside violence in all its dimensions physical religious political psychological and structural remain unabated and occupy central stage in contemporary Africa The resilience of

conflict and violence on the continental scene invokes unsettling memories of the past while negatively influencing the present and future of crafting inclusive citizenship and statehood The book provides fresh insightful ethnographic and intellectual material for rethinking violence and conflict and for fostering long lasting peace and political justice on the continent and beyond With its penetrating focus on conflict and associated trajectories of violence in Africa the book is an inestimable asset for conflict management practitioners political scientists historians civil society activists and leaders in economics and politics as well as all those interested in the affairs of Africa

White Christian Nationalism in the United States Angelyn Spaulding Flowers, 2024-11-19 Arguing that January 6th was just the tip of the iceberg this book reveals the full impact of white Christian nationalism on the United States Flowers explores how white Christian nationalism has infused its agenda in social cultural legislative and political aspects of life in an effort to move the United States toward becoming an authoritarian theocratic white ethnostate Part of the larger far right enterprise white Christian nationalism is unique in the way in which it pulls a variety of far right ideologies together These ideologies include anti abortion anti LGBTQ antisemitism authoritarianism Christian nationalism ethnonationalism male supremacy racism sexism and xenophobia Understanding the way these ideologies complement each other and are perpetuated is the only route to resist them

Life in Transit: Theological and Ethical Contributions on Migration Manitza Kotzé, Riaan Rheeder, 2020-12-31 Migration is an issue that is under discussion worldwide and affects South Africa the United States of America and Germany in a distinctive way This book reflects academically on this significant and topical subject of migration from the often neglected perspective of the fields of theology and Christian ethics While the majority of contributions are from the South African context there are also chapters reflecting on the topic from the other two aforementioned contexts While numerous publications have recently appeared on the subject reflection from theology and Christian ethics are often lacking As such this scholarly publication wants to add ethical value to the local and global conversations on the theme from a theological perspective The book reflects on migration from the perspectives originated in the disciplines of biblical studies the Hebrew Bible and the New Testament systematic theology ecumenical studies Christian ethics practical theology and missiology It presents new and innovative inquiries primarily from a qualitative methodological viewpoint The book unveils new themes for deliberation and provides novel interpretations and insights into existing research

Pan-Africanism in Modern Times Olayiwola Abegunrin, Sabella Ogbobode Abidde, 2016-06-15 For about one hundred years Pan Africanism as a social cultural economic political and philosophical idea thrived Towards the tail end of the twentieth century however it waned But in more recent times there has been noticeable resurgence And as we approach the second decade of the twenty first century there are indications of significant transformations vis vis the role and place of Pan Africanism and Pan Africanists Consequently this book offers a new further and better understanding of Pan Africanism not just from the traditional African and African American points of view but also from a global perspective It does so by offering an analysis of its early years in terms of the

personalities ideas and conferences that shaped it it also examines many of the factors that brought about its decline and its eventual rebirth Contributing to this seminal work are scholars of different but complementary styles and intellect who deviate from the more traditional or obvious approaches For instance one of the chapters explores Pan Africanism from the geographic perspective while another examines the role and place of women in the Pan African movement There are also voices that advance the conversation from the regional and continental viewpoint hence chapters that investigate the status of Pan Africanism in Latin America in the Caribbean and Islam and Pan Africanism in the modern world Ethnonationalism and xenophobia are also part of the treatise because increasingly these injurious phenomena are reemerging in Africa s landscape and consciousness In an increasingly interdependent and interrelated world this book also suggests that Pan Africanism will undergo a metamorphosis problems and challenges will be seen and tackled from the globalization and global common perspective Pan Africanism in Modern Times goes beyond the historicity of Pan Africanism and examines the challenges concerns and constraints it faces and also examines it from an inclusive perspective to have a broader understanding of this phenomenon and its future trajectory

The United Nations and Sustainable Development Goals

Sheriff Folarin, Esther Akinlabi, Aderemi Atayero, 2022-05-03 The book is a collection of analyses on country specific and universal efforts programmes and projects from Africa and beyond aimed at realising the Sustainable Development Goals SDGs Specifically the chapters focus on the achievements and challenges that can potentially aid countries of the world and the United Nations in achieving the 17 SDGs The chapters focus more on the challenges prospects and concrete steps taken in the Global South towards the attainment of these goals

Alexander Palmer, Riley McCabe, Daniel Byman, Skyeler Jackson, 2025-07-24 Terrorism remains a threat to U S citizens assets and interests despite the national security community s decreasing focus on counterterrorism In 2025 domestic terrorism represents a greater threat to the United States than do international terrorist organizations Most domestic terrorist attacks in the United States are carried out by lone actors or small groups who believe in a wide range of ideologies such as white supremacy partisan extremism and Salafi jihadism In the Middle East the Al Qaeda core Al Qaeda in the Arabian Peninsula and the Islamic State remain committed to conducting attacks against the U S homeland as well as U S interests although all three are weaker than they were during their heydays Israel has degraded Hezbollah s and Hamas s capabilities while the Houthis have become a more active regional threat Africa remains the most active theater for Salafi jihadist organizations but the continent s groups are mostly tertiary priorities for the United States with the exception of East Africa s Al Shabaab This report consists of three regional assessments of the threat from terrorist groups and movements in the United States the Middle East including Afghanistan and Africa The purpose of this assessment is to help U S national security policymakers intelligence and law enforcement professionals and military decision makers prioritize among different terrorist threats
