News Across Media Jakob Linde Jensen, Mette Mortensen, Jacob Ørmen, 2016-05-26 News production distribution and consumption are in rapidly changing due to the rise of new media This book examines how these processes become more and more interrelated through logics of dissemination sharing and co production These changes have the potential to affect the criteria of newsworthiness as well as existing power structures and relations within the fields of journalism and agenda setting The book discusses changing logics of production from citizens as well as journalists perspectives examines distribution and sharing as a link between but also an intrinsic part of production and consumption and addresses the changing logics of consumption Contributors place such changes in a historical perspective and outline challenges and future research agendas

Social TV Mike Proulx, Stacey Shepatin, 2012-01-26 The Internet didn't kill TV It has become its best friend Americans are watching more television than ever before and we're engaging online at the same time we're tuning in Social media has created a new and powerful backchannel fueling the renaissance of live broadcasts Mobile and tablet devices allow us to watch and experience television whenever and wherever we want And connected TVs blend web and television content into a unified big screen experience bringing us back into our living rooms Social TV examines the changing and complex television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities Social TV topics include Leveraging the second screen to drive synched and deeper brand engagement Using social ratings analytics tools to find and target lean forward audiences Aligning brand messaging to content as it travels time shifted across devices Determining the best strategy to approach marketing via connected TVs Employing addressable TV advertising to maximize content relevancy Testing and learning from the most cutting edge emerging TV innovations The rise of one technology doesn't always mean the end of another Discover how this convergence has created new marketing opportunities for your brand

Birth of Video Ethan Parker, 2015-03-21 How did the flickering images of early experiments evolve into the ubiquitous video technology that shapes our world Birth of Video explores this transformation tracing the technical innovations cultural shifts and entrepreneurial ventures that propelled video from a laboratory curiosity to a global force in entertainment news and communication This book argues that the development of video technology is not merely a linear progression of scientific advancements but a complex interplay of human ingenuity market forces and societal needs We delve into the foundational concepts underpinning video technology beginning with the early experiments in image transmission and recording This includes examining the contributions of key inventors and scientists their initial breakthroughs and the challenges they faced in translating theoretical concepts into tangible devices The book then investigates the critical role of standardization and infrastructure in facilitating the widespread adoption of video analyzing the evolution of broadcast standards recording formats and distribution networks that enabled video to reach a mass audience Finally we explore video's profound impact on culture and society looking at its influence on entertainment

news dissemination education and social interaction Understanding these three main topics is crucial to appreciating video's current dominance and future trajectory To provide context *Birth of Video* explores the parallel development of related media technologies such as photography and audio recording and their convergence with video The book also examines the regulatory landscape that shaped the video industry including policies governing broadcasting copyright and content distribution Readers will gain insights into the historical economic and political forces that influenced video's growth and evolution The book unfolds in a chronological narrative starting with the pre history of video and concluding with the emergence of digital video platforms We begin by establishing the scientific foundations such as the discovery of the photoelectric effect and the development of cathode ray tubes The narrative then progresses through the early experiments in mechanical television the invention of electronic television and the subsequent development of videotape recording Mid sections analyze the rise of broadcast television networks the introduction of home video formats and the proliferation of cable and satellite television Finally the book addresses the transition to digital video the emergence of streaming media and the impact of social media platforms Evidence and research are drawn from a variety of sources including archival documents patent records technical specifications industry reports and oral histories with key figures in the development of video technology The book incorporates quantitative data on market trends technology adoption rates and audience demographics to provide a comprehensive and evidence based analysis *Birth of Video* connects to several other fields of study including electrical engineering media studies sociology and business history By examining the technological cultural and economic dimensions of video's development the book offers a uniquely interdisciplinary perspective This book stands out by offering a holistic account of video's evolution integrating technical details with social and cultural analyses Rather than focusing solely on technological breakthroughs it explores the human stories behind the inventions and the societal implications of their widespread adoption Written in a clear and accessible style *Birth of Video* is aimed at a broad audience including students researchers media professionals and anyone interested in the history of technology and its impact on society The book provides valuable insights into the forces shaping the media landscape and the ongoing evolution of video technology As a work of non fiction *Birth of Video* adheres to standards of accuracy objectivity and evidence based analysis While the book covers a wide range of topics it focuses primarily on the technological and cultural dimensions of video's development rather than exploring its aesthetic or artistic aspects in great detail The knowledge shared in *Birth of Video* can be used in practical ways Media professionals will better understand the historical context of their work while policymakers can draw insights into the regulation and governance of emerging video technologies The book will touch upon debates about net neutrality the impact of streaming services on traditional media and the role of video in shaping public opinion It will provide a balanced and nuanced perspective on these complex issues

The Integrated News Spectacle James Robert Compton, 2004 *The Integrated News Spectacle* examines the rational organization of control of popular news forms It uses

spectacular media events such as the mourning of Princess Diana the Monica Lewinsky presidential scandal and the Gulf wars of 1991 and 2003 as entry points into a discussion of the broader context surrounding an integrated system of commodity production distribution and exchange James R Compton critiques the generally accepted notion of tabloidization associated with media spectacles and situates these dramatic narratives within a broad historical context Drawing on the work of Guy Debord David Harvey and Pierre Bourdieu this book explains how the power relationships associated with media events can best be comprehended by revealing the practical application of the logic of spectacle a logic characterized by the transposable circulation and promotion of cultural commodities
