Handbook of Research on Pedagogies and Cultural Considerations for Young English Language Learners

Onchwari, Grace, Keengwe, Jared, 2017-10-31 In the schools of today English learners are the fastest growing segment of the student population. As such, it is increasingly imperative to educate these students properly while still practicing inclusion for overall student success. The Handbook of Research on Pedagogies and Cultural Considerations for Young English Language Learners is an authoritative research publication on research-based theoretical frameworks and best practices for teaching young English language learners. Featuring exhaustive coverage on a variety of topics and perspectives such as co-teaching, inclusion, and social awareness, this publication is ideally designed for academicians, researchers, and students seeking current research on the examination of how diverse backgrounds, cultures, and experiences contribute to curriculum and pedagogy for bilingual young learners. *Co-Teaching - Everyday Life or Terra Incognita of Contemporary Education?* Beata Pitula, Mirosław Kowalski, 2022-11-14 Following Dawid Juraszek's statement that education is in a way a conversation face to face in the ether in black and white, the contributors representing various scientific disciplines and various scientific centers in Poland and the Czech Republic have started a discussion on co-teaching as a proposal for the school/university work in the next decade of the 21st century, hoping that the thoughts contained herein will prove helpful to all critically thinking and continuously improving teachers, academic staff, and candidates for the profession. The publication consists of four interrelated parts: 1. teacher, creator, and implementer; 2. co-teaching in the educational practice of schools consists of reflections on the possibilities and real use of co-teaching in teachers' everyday work; 3. examples of co-teaching in academic education; and 4. reflection on co-teaching. They all add up to a holistic picture of co-teaching as it is implemented in current educational practice and can provide a basis for further research and discussion on this teaching strategy.
