Redefining Codification Dirk Heirbaut, 2024-12-10 More than half of the world s population lives under law codes Yet defining the concept of codification remains elusive Rather than delving into abstract theories this book provides a rich and contextual comparative legal history of codes in France Germany the Netherlands and Belgium from the late eighteenth century to the present The author starts by examining the evolution of French German Dutch and Belgian codes in their political and comparative context thus challenging deeply rooted national narratives He covers the well studied civil codes and the often overlooked commercial and procedural codes and drafts that failed to become law Against this backdrop the book embarks on a comprehensive analysis of the factors contributing to the success or failure of codification efforts Employing an innovative method of comparative legal history Redefining Codification explores the key players and objectives behind codification revealing that traditional notions of codification are far removed from reality Following the deconstruction of some universal truths about codifications this volume offers fresh insights into the behind the scenes of the lawmaking machinery and an empirically based definition of codification **Jurisconsultus es, iuris nihil a te alienum putamus** Philippe Meier, Denis Tappy, 2023-12-05 Jurisconsultus es iuris nihil a te alienum putamus Jurisconsultus es iuris nihil a te alienum putamus *Les servitudes collectives* Viviane David, 2021-07-30 Pr vue par l article 743 du Code civil suisse l puration des servitudes fonci res en cas de division d un fonds

Liability in Comparative Perspective Jean-Sébastien Borghetti, Simon Whittaker, 2019-12-26 The French law of torts or of extra contractual liability is widely seen as exceptional For long it was based on a mere five articles of the Civil Code of 1804 but on this foundation the courts and legal scholars have constructed liabilities for fault and strict liability of an extraordinary breadth and significance While the rest of the general law of obligations including contract in the Civil Code was reformed in 2016 by executive ordonnance this area was left aside being the subject in 2017 of a proposal by the French Government for the legislative reform of the law of civil liability a new legislative category to include both contractual and extra contractual liability This work considers important aspects of this developing area of French law in a series of essays by French lawyers and comparative lawyers working in French law and other civil law systems In doing so it provides insight into the doctrinal thinking and judgments of French lawyers as well as the possible directions in which this area of the law may be developed in the future
