Coaching Based Ministry Transforming Ministry Through Empowerment Coaching:

Coaching Based Ministry Mike McGervey, Tim Cosby, 2011-11 Traditional models of spiritual transformation and leader development depend on the ability of experts to impart their knowledge experience and advice to others But what we have discovered is that receiving information and advice alone does not lead to transformation and growth This happens only when a person becomes internally motivated to change Coaching empowers people to change without telling them what to do To be empowered means to take ownership of and responsibility for shaping your own future This is based on the principle that the people you coach will understand value and apply for themselves what you help them to discover not what you tell them We are also convinced that as churches and faith based organizations discover the power and possibilities of coaching there will be a growing effort to rebuild ministries and develop leaders around what we call the Coaching Based Ministry TM model This book is built around helping you find answers to three key questions Why coaching What is it like to be coached What does it take to become an effective coach It is our hope and prayer that you will find meaningful answers to those questions and will then join us in bringing Coaching Based Ministry TM to the churches and faith based organizations in your area Mike McGervey Tim Cosby Transformational Coaching Joseph Umidi, 2005-03 Transformational Coaching is a clarion call to bridge the work world and personal life of the 21st century ministry and marketplace leader through the experience of a dynamic coaching relationship Transformational Coaching points to the powerful connection that can take place at a heart to heart level building the bridges that will impact connect and resource ministry and marketplace to advance the Kingdom of God Coaching Leadership Families Dsl Ulf Spears, 2012-11 This book examines the leadership family model as a key coaching and mentoring tool for the multiplication of healthy strong families in the twenty first century This book introduces the leadership family model as a four step process individual male and female leadership leadership couples leadership families mentor coach other leadership families In addition this book highlights the third and fourth steps of the leadership family model leadership families mentoring coaching leadership families by defining explaining and suggesting ways to coach and mentor families locally and globally Primary and secondary research was used in this book as well as life experience The results indicate there is evidence leadership families do exist and the leadership family model should be considered as a viable coaching and mentoring tool for multiplying healthy strong families in the twenty first century In addition the results suggest families need a roadmap to health strength and growth The leadership family model can provide that roadmap
