

# Code national du bâtiment - Canada 2010

## Modifications urgentes

Publié par la Commission canadienne des codes du bâtiment et de prévention des incendies

Le tableau ci-dessous dresse la liste de deux modifications urgentes au Code national du bâtiment – Canada 2010 (CNB). La Commission canadienne des codes du bâtiment et de prévention des incendies a approuvé leur publication immédiate pour des raisons de sécurité. Ces modifications sont nécessaires puisque le libellé existant pourrait être mal interprété et porter à croire qu'il ne soit pas nécessaire que les composants structuraux des bâtiments associés à l'enveloppe du bâtiment soient conçus de manière à résister aux forces sismiques à moins que le bâtiment soit un bâtiment de protection civile. Le paragraphe a été révisé de manière à clarifier que la conception de tous les composants structuraux doit être conforme à l'article 4.1.8.18, pour ce qui est de la résistance aux forces sismiques.

Afin de faciliter la consultation du CNB, les pages visées par les modifications urgentes ont été mises à jour et figurent à la suite du tableau.

| Disposition                 | Modification urgente                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Division B, volume 2</b> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 5.2.2.1. 2)                 | Modifier le début du paragraphe comme suit : - <u>Sous réserve de l'article 4.1.8.18, les</u> <del>Les</del> charges structurales indiquées au paragraphe 1) et les effets connexes comprennent... -                                                                                                                                                                                                                                                                                                                                                                                              |
| A-5.2.2.1. 2)               | Modifier la dernière partie de la note d'annexe comme suit : -... (voir l'article 4.1.8.13, pour connaître les déformations et limites de glissement des bâtiments de protection civile).<br><u>Cependant, il est important de noter que les effets des secousses sismiques doivent être pris en compte dans la conception résistant aux forces sismiques de tous les matériaux de construction, composants, ensembles et leurs interfaces visés par l'article 4.1.8.18, afin de tenir compte de la sécurité des personnes et de la protection des bâtiments contre les dommages structuraux.</u> |

Comme pour tout contenu du CNB, communiquez avec votre autorité compétente locale afin de déterminer si ces modifications urgentes s'appliquent dans votre province ou votre territoire.

**iso 9613 1 1993 sai global store** - Aug 09 2022

web jun 3 1993 acoustics determination of sound power levels and sound energy levels of noise sources using sound pressure precision methods for anechoic rooms and hemi anechoic rooms iso 17201 2 2006 acoustics noise from shooting ranges part 2 estimation of muzzle blast and projectile sound by calculation

iso 9613 1 1993 acoustics attenuation of sound during - Dec 13 2022

web iso 9613 1 1993 acoustics attenuation of sound during propagation outdoors part 1 calculation of the absorption of sound by the atmosphere specifies an analytical method of calculating the attenuation of sound as a result of atmospheric absorption for a variety of meteorological conditions

**iso iec 8613 1 european standards** - Feb 03 2022

web iso iec 8613 1 introduces the iso iec 8613 series gives the necessary references defines terms presents the concepts of the document architecture gives an overview of the series describes the inter dependencies defines conformance to the itu t t 410 series gives rules for defining document application profiles

*international standard 96134* - Jun 19 2023

web this part of iso 9613 specifies an analytical method of calculating the attenuation of sound as a result of atmospheric absorption for a variety of meteorological conditions when the sound from any source propa gates through the atmosphere outdoors

*iso 9613 2 1996 acoustics attenuation of sound during* - Nov 12 2022

web describes a method for calculating the attenuation of sound during propagation outdoors in order to predict the levels of environmental noise at a distance from a variety of sources the method predicts the equivalent continuous a weighted sound pressure level as described in iso 1996 under meteorological conditions

**calculation method of absorption of sound by atmosphere air** - May 06 2022

web iso 9613 1 1993 specifies an analytical method of calculating the attenuation of sound as a result of atmospheric absorption for a variety of meteorological conditions for pure tone sounds attenuation due to atmospheric absorption is specified in terms of an attenuation

**iso 9613 1 acoustics attenuation of sound during propagation** - Apr 17 2023

web jun 1 1993 this part of iso 9613 accounts for the principal absorption mechanisms present in an atmosphere devoid of significant fog or atmospheric pollutants the calculation of sound attenuation by mechanisms other than atmospheric absorption such as refraction or ground reflection is described in iso 9613 2

**iso iec 8613 1 1994 information technology open document** - Mar 04 2022

web iso iec 8613 1 1994 information technology open document architecture oda and interchange format introduction and general principles part 1 this standard was last reviewed and confirmed in 2006 therefore this version remains current abstract preview introduces the iso iec 8613 series gives the necessary references defines terms

**iso 9613 1 1993** - Aug 21 2023

web iso 9613 1 1993 acoustics attenuation of sound during propagation outdoors part 1 calculation of the absorption of sound by the atmosphere this standard was last reviewed and confirmed in 2021

*windows and door height windows air permeability test iso* - Jan 02 2022

web iso 6613 1980 windows and door height windows air permeability test this standard has been revised by iso 6613 2023 general information status withdrawn publication date 1980 10 edition 1 number of pages 3 technical committee iso tc 162 doors windows and curtain walling

iso 9613 1 acoustics attenuation of sound during propagation - Sep 10 2022

web jun 1 1993 iso 9613 1 1st edition jun 1 1993 acoustics attenuation of sound during propagation outdoors part 1 calculation of the absorption of sound by the atmosphere this part of iso 9613 specifies an analytical method of calculating the attenuation of sound as a result of atmospheric absorption for a variety of meteorological

**this is a preview of iso 9613 1 1993 click here to purchase the** - Jun 07 2022

web iso 9613 consists of the following parts under the general title acoustics attenuation of sound during propagation outdoors part 1 calculation of the absorption of sound by the atmosphere part 2 a general method of calculation annexes a b c d e and f of this part of iso 9613 are for information only

**iso 9613 1 1993 en acoustics attenuation of sound during** - May 18 2023

web this part of iso 9613 specifies an analytical method of calculating the attenuation of sound as a result of atmospheric absorption for a variety of meteorological conditions when the sound from any source propagates through the atmosphere outdoors

**calculation of absorption of sound by the atmosphere** - Mar 16 2023

web iso 9613 part 1 describes the calculation method for absorption of sound by the atmosphere for pure tones the standard specifies the attenuation coefficient as a function of frequency temperature humidity and pressure the calculator presented

here computes the attenuation coefficient according to iso 9613 1 given those four variables

**photo book review your family in pictures the parents guide** - Jun 13 2023
