Suspense in Ancient Greek Literature Ioannis M. Konstantakos, Vasileios Liotsakis, 2021-02-22 The use of suspense in ancient literature attracts increasing attention in modern scholarship but hitherto there has been no comprehensive work analysing the techniques of suspense through the various genres of the Classical literary canon This volume aspires to fill such a gap exploring the phenomenon of suspense in the earliest narrative writings of the western world the literature of the ancient Greeks The individual chapters focus on a wide range of poetic and prose genres epic drama historiography oratory novel and works of literary criticism and examine the means by which ancient authors elicited emotions of tense expectation and fearful anticipation for the outcome of the story the development of the plot or the characters fate A variety of theoretical tools from narratology and performance studies to psychological and cognitive approaches are exploited to study the operation of suspense in the works under discussion Suspenseful effects are analysed in a double perspective both in terms of the artifices employed by authors and with regard to the responses and experiences of the audience The volume will be useful to classical scholars narratologists and literary historians and theorists

A Certain Justice Haiyan Lee, 2023-06-05 A much needed account of the hierarchy of justice that defines China's unique political legal culture To many outsiders China has an image as a realm of Oriental despotism where law is at best window dressing and at worst an instrument of coercion and tyranny In this highly original contribution to the interdisciplinary field of law and humanities Haiyan Lee contends that this image arises from a skewed understanding of China's political legal culture particularly the failure to distinguish what she calls high justice and low justice In the Chinese legal imagination Lee shows justice is a vertical concept with low justice between individuals firmly subordinated to the high justice of the state China's political legal culture is marked by a mistrust of law's powers and as a result it privileges substantive over procedural justice Calling on a wide array of narratives stories of crime and punishment subterfuge and expos guilt and redemption **A Certain Justice** helps us recognize the fight for justice outside the familiar arenas of liberal democracy and the rule of law

Air Force AFM., 1959 *The Voices of Suspense and Their Translation in Thrillers* Susanne M. Cadera, Anita Pavic Pintaric, 2014-03-05 The volume aims to be a reference work for all researchers interested in the study of fictional dialogue and its translation in suspense novels and films as well as in related genres The volume also

aims to determine the interplay between the creation of suspense and fictional dialogue The particular interest in dialogue comes from the host of roles it plays in fiction It helps create suspense and arouses a whole range of feelings in the reader or the audience related to the development of the plot Fictional dialogue is the discursive method of evoking orality conferring authenticity and credibility on a plot and giving fictional characters a voice As a narrative strategy dialogue is an important resource that enables the writer to shape the character's subjectivity In thrillers the character's voice is part of the process of creating suspense an element of uncertainty anxiety and excitement which is not exclusive to this genre To clearly differentiate suspense from the tension created by other types of fiction this volume aims to study the relationship between the characters' voices and the building of suspense and to describe the translation difficulties arising from this particular interdependence

The Alchemist in Literature Theodore Ziolkowski, 2015-10-15

Unlike most other studies of alchemy and literature which focus on alchemical imagery in poetry of specific periods or writers this book traces the figure of the alchemist in Western literature from its first appearance in the Eighth Circle of Dante's *Inferno* down to the present From the beginning alchemy has had two aspects exoteric or operative the transmutation of base metals into gold and esoteric or speculative the spiritual transformation of the alchemist himself From Dante to Ben Jonson during the centuries when the belief in exoteric alchemy was still strong and exploited by many charlatans to deceive the gullible writers in major works of many literatures treated alchemists with ridicule in an effort to expose their tricks From the Renaissance to the Enlightenment as that belief weakened the figure of the alchemist disappeared even though Protestant poets in England and Germany were still fond of alchemical images But when eighteenth-century science almost wholly undermined alchemy the figure of the alchemist began to emerge again in literature now as a humanitarian hero or as a spirit striving for sublimation Following these esoteric romanticizations as scholarly interest in alchemy intensified writers were attracted to the figure of the alchemist and his quest for power The fin de siècle saw a further transformation as poets saw in the alchemist a symbol for the poet per se and others influenced by the prevailing spiritism as a manifestation of the religious spirit During the interwar years as writers sought surrogates for the widespread loss of religious faith esoteric alchemy underwent a pronounced revival and many writers turned to the figure of the

alchemist as a spiritual model or in the case of Paracelsus in Germany as a national figurehead This tendency theorized by C G Jung in several major studies inspired after World War II a vast popularization of the figure in novels historical set in the present or juxtaposing past and present in England France Germany Italy Brazil and the United States The inevitable result of this popularization was the trivialization of the figure in advertisements for healing and cooking or in articles about scientists and economists In sum the figure of the alchemist in literature provides a seismograph for major shifts in intellectual and cultural history
