Cognitive Explorations Into Metaphor And Metonymy:

Cognitive Explorations Into Metaphor and Metonymy Frank Polzenhagen, Zoltán Kövecses, Stefanie Vogelbacher, Sonja Kleinke, 2014 This volume presents cognitive linguistic studies on metaphor and metonymy It includes papers with a theoretical scope and case studies The topics range from emotion terms political and scientific discourse morphology cross cultural variation to internet communication The authors use corpus based qualitative and discourse analytic methods

Memory, Identity and Cognition: Explorations in Culture and Communication Jacek Mianowski, Michał Borodo, Paweł Schreiber, 2019-03-26 The book analyses a variety of topics and current issues in linguistics and literary studies focusing especially on such aspects as memory identity and cognition Firstly it discusses the notion of memory and the idea of reimagining as well as coming to terms with the past Secondly it studies the relationship between perception cognition and language use It then investigates a variety of practices of language users language learners and translators such as the use of borrowings from hip hop and slang The book is intended for researchers in the fields of linguistics and literary studies lecturers teaching undergraduate and master s students on courses in language and literature

Current Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse

Argument is War: Relevance-Theoretic Comprehension of the Conceptual Metaphor of War in the Apocalypse Clifford Winters, 2020-09-25 In *Argument is War Relevance Theoretic Comprehension of the Conceptual Metaphor of War in the Apocalypse* Clifford T Winters demonstrates that the apparent war in the Apocalypse is rather telling the story of the gospel how Christ will restore Israel and through them the rest of the world When Revelation is viewed

through the corrective lens of cognitive linguistics its violence becomes victory its violent characters become Christ and its bloody end becomes the blessed beginning of the New Jerusalem Revelation is simply telling the story of the early church the Gospels and Acts to the early church and it is using a conceptual metaphor ARGUMENT IS WAR to do it **Metaphors of ANGER across Languages: Universality and Variation** Zoltan Kövecses, Réka Benczes, Veronika Szelid, 2024-11-04 Anger is one of the basic emotions of human emotional experience informing and guiding many of our choices and actions Although it has received considerable scholarly attention in a number of disciplines including linguistics a basic question has still remained unresolved why do variations in the folk model of anger exist across languages if it is indeed a basic emotion rooted in largely universal bodily experience By drawing on a wide selection of comparable linguistic data from dozens of languages including a number of less researched languages this volume provides the most comprehensive account of what is universal and what is variable in the folk model of anger and why It also investigates the role that metonymies might play in the emergence of anger related metaphors and in what ways context influences or shapes anger metaphors and thereby the resulting folk model of anger No such volume exists in the cognitive linguistic literature on anger or on emotions for that matter The book is thus an essential contribution to the study of anger and will serve as basic reading for any researcher interested in how the conceptualization of anger is constructed via the interplay of bodily experience language and the larger cultural context *Visual Metaphors* Réka Benczes, Veronika Szelid, 2022-09-15 Whenever we think about the world including its concrete and abstract entities we typically see a series of so called mental images in front of our eyes that aid us in everyday problem solving and navigating ourselves in the world Visual metaphors similarly to their linguistic counterparts largely build on such images Nevertheless the interplay of metaphorical metonymical text and imagery is not necessarily and not usually straightforward and raises complex theoretical and methodological questions The eleven chapters in this collection address a wide range of such challenges such as what are visual metaphors in the first place how can they be identified what is their relationship to linguistic metaphors what are their most common manifestations what knowledge structures are required for their interpretation and how do they interact with metonymies The studies cut across linguistics politics philosophy poetry art and history highlighting the ubiquitous role that visual metaphor plays in everyday life and conceptualizations Originally published as special issue of Cognitive Linguistic Studies 7 1 2020 *Metaphor, Nation and Discourse* Ljiljana Šarić, Mateusz-Milan Stanojević, 2019-05-20 This edited volume examines how metaphors and related phenomena metonymies symbols cultural models stereotypes lead to the discursive construal of a common element that brings the nation together The central idea is that metaphor use must be questioned to lay bare the processes and the discursive power behind them The chapters examine a range of contemporary and historical monomodal and multimodal discourses including politicians discourse presidential speeches newspapers TV series Catholic homilies colonialist discourse and various online sources The approaches taken include political science international relations cultural studies and

linguistics All contributions feature discursive constructivist views of metaphor with clear sociocultural grounding and the notion of metaphor as a framing device in constructing various aspects of nations and national identity The volume will appeal to scholars in discourse analysis metaphor studies media studies nationalism studies and political science **Studies in Figurative Thought and Language** Angeliki Athanasiadou, 2017-04-26 This volume contains original research and innovative analyses that deepen our understanding of figurative thought and language The selected papers focus on the multifaceted aspect of figuration its function in thought and its impact on areas of grammar and communication Key topics explored include metaphor metonymy and their relationship to each other as well as the less studied figure of hyperbole and its relation to the fundamental figures of metaphor and metonymy Collectively the papers examine the pragmatic reasoning processes triggered by figurative thought the lexicogrammatical motivations and or constraints on figurative language the impact of deeply entrenched figurative thought on the lexicon of natural languages the cultural origins of figurative thought and the psycholinguistic motivations for figuration The comprehensive treatment of these issues is fundamental for future research on figurative thought and language particularly on questions of universality vs specificity of figuration the impact of figuration on constructions cross linguistic comparisons of figurative language and cognitive pragmatic approaches to figurative meaning *Ecological Communication and Ecoliteracy* Maria Bortoluzzi, Elisabetta Zurru, 2024-05-02 This open access volume is a call for ecological awareness and action through communication It offers perspectives on how we as humans posit ourselves in relation to and as part of the environment in both verbal and non verbal discourse The contributions investigate a variety of situated communicative practices and how they instantiate and potentially influence our actions Through the frameworks of ecolinguistics multimodal studies and ecoliteracy the book discusses how the environmental crisis is communicated as an urgent global and local issue in a variety of media texts and events The contributions present a wide range of case studies including news articles institutional websites artwork installations promotional texts signposting social campaigns and other and they explore how communicative actions can help meet the challenges of ecologically oriented change The focus is on the impact that linguistic and multimodal communication can have on acting in with and towards the environment seen as living ecosystems or lifescapes The chapters offer a reflection on the way we experience endorse reframe and resist value systems in ecological communication and propose alternative and healthier perspectives to respect and preserve the common and nurturing lifescapes through awareness and action The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections.com

Political Metaphor Analysis Andreas Musolff, 2016-08-25 Political metaphors and related figurative discourse tools are characterised by their variability and contentiousness Using them discourse participants try to gain competitive advantage over others by offering their audiences new meaning nuances challenging each other and announcing political initiatives It is here that metaphor as a means to change meanings and thus to change social and political reality comes into its own Political

Metaphor Analysis provides an innovative approach to the study of figurative language use in political discourse by presenting empirical analyses based on a large corpus of political metaphors and metonymies linking these analyses to theoretical positions and assessing their limitations and perspectives for further exploration. The classic model of conceptual metaphor analysis pioneered by Lakoff and Johnson 1980 and expanded and amended over the past thirty five years is critically examined with regard to new findings about the variation, historicity, pragmatic exploitation, comprehension and interpretation of metaphors. As a central new analytical category, the notion of metaphor scenario is proposed and tested against various sub sets of data. It allows to link hypothesised conceptual metaphors to narrative argumentative and evaluative patterns in actual discourse and understanding processes so that their cognitive significance can be more reliably gauged and theoretically modelled.
