Commercial Utilization Of Outer Space Commercial Utilization Of Outer Space:

Commercial Utilization of Outer Space H.L. van Traa-Engelman, 2023-11-27 This book assesses the present status of space activity regulation against the background of the progressive commercialization of outer space The basic legal framework for outer space activity was established during a time when space endeavour was still in its infancy and a critical reassessment of its principles therefore forms the basis of this publication The outcome of this analysis and the legal implications which result from applying it to practical space utilization yield an insight into the legal questions pertaining to space commercialization and its practical implementation Commercial Utilization of Outer Space will be of great interest to academics and practitioners in the field of space activities as well as to government policy makers in different sectors of space commercialization ranging from space transportation satellite communication and remote sensing to space insurance and manufacturing in outer space Wherever appropriate and feasible practical aspects have been dealt with against the background of present day realities and developments foreseen for the future

The Utilization of the World's Air Space and Free Outer Space in the 21st Century: Proceedings of the International Conference on Air and Space Policy, Law and Industry for the 21st Century, Held in Seoul from 23-25 June, 1997 Jiarui Cheng, Chia-Jui Cheng, Tu-hwan Kim, Doo Hwan Kim, 2000-04-27 Proceedings of the International Conference on Air and Space Policy Law and Industry for the 21st Century held in Seoul from 23 25 June 1997

The Use of Air and Outer Space Cooperation and Competition Chia-Jui Cheng, 2023-12-11 The Proceedings of the Conferences on Air and Space Law organized in Asia by the Asian Institute of Air and Space Law are establishing themselves as a major source of up to date and thought provoking literature on the latest international developments The organizers have again succeeded in attracting the most influential and provocative contributors and their well edited papers make a significant addition to the worldwide discussions on the vital question of the use of Air and Outer Space

Commercial and Military Uses of Outer Space Melissa de Zwart, Stacey Henderson, 2021-02-25 This edited book brings together a diverse range of chapters on space related topics The authors included in this book are drawn from Australia and overseas from academia government industry civil society and the military This book contains chapters that cover topics such as law science archaeology defence policy and more all with a focus on space This edited collection is a timely international and interdisciplinary book which addresses some of the contemporary issues facing activities in space and those attempting to understand use and regulate the space domain This edited book seeks to normalise the role of women as experts in the space sector by not calling attention to the fact that all the authors are women they are all experts in their respective fields who just happen to be women Bringing together these contributions in this book in turn promotes the inclusion of diversity in the space sector This edited collection is an opportunity to influence the development of the space industry in terms of gender diversity and diversity of disciplines and thinking while it is in its formative stage rather than trying to redress imbalances once they are entrenched in the industry

Space Insurance: International Legal Aspects Katarzyna Malinowska, 2017-03-15 Insurance related to outer space activities has been around since the 1960s but has become vastly more significant with the increased commercial use of satellites This book focuses on the legal aspects of space insurance in the contractual context analysing space risk as well as the insurance terms used on the market It offers the first in depth coverage both practical and theoretical of space insurance from an international law perspective Attending throughout to the important and problematic distinction between the space segment upstream and ground segment downstream in space law this book deals comprehensively with such issues and topics as the following the main hazards relating to space activities the impact of new space technologies on the level of risk and insurance the differing types of risks attributable to various entities in the context of insurable interest aspects of the space risk allocation regimes and risk assessment the impact of the five space treaties the Outer Space Treaty the Liability Convention the Rescue Agreement the Registration Convention and the Moon Agreement on the subject and scope of insurance coverage the advent of suborbital flight commercial human space flight and space tourism in the context of emerging insurance risks the problem of space debris contractual aspects of space activities affecting the space insurance risks basic notions such as outer space space object in the context of space activities and related insurance coverage basic insurance principles and their operation in the space insurance and the adjustment of losses and the settlement of disputes in space insurance The author emphasises the need to understand the various insurance risks facing particular types of commercial space activities including pre launch launch transportation spaceflight satellite communications satellite navigation satellite remote sensing and space station operation Satellites are increasingly a vital part of many daily activities of contemporary society and the Earth s orbit is becoming ever more crowded heightening the risks of collision damage and claims This thoroughly researched book will therefore be extremely useful to lawyers policymakers and academics tasked with defining the scope of insurance coverage that accurately mirrors technological contractual and legal reality Its practical aspect will be of extraordinary value to insurance lawyers underwriters and brokers
