How You Can Profit from Credit Cards Curtis E. Arnold, 2008-06-06 Who would not be interested in getting an interest free loan for 12 months for any type of purchase just for taking a few minutes to complete a credit card balance transfer offer Or a free round trip airline ticket twice a year just for making purchases on a rebate card Or lowering their insurance premiums by hundreds of dollars a year just by raising their credit score Obviously just about every consumer is interested in saving money and getting freebies Hence the universal appeal of this book cannot be overstated Today the average American household has 12.7 credit cards Banks maximize their profits by nickel and diming and outsmarting their cardholders that's why credit cards are their most profitable product Banks spend billions enticing consumers with rebates freebies low introductory rate offers and airline miles Learn how to take full advantage of these offers without paying for them through brutally high interest rates fees and penalties Arnold offers specific advice targeted to young consumers who are being aggressively targeted by credit card marketers retirees facing credit discrimination Americans recovering from bankruptcy or other debt problems and even consumers with great credit You'll learn the techniques he has personally used to escape credit card debt creatively finance his wedding car and home purchases and earn thousands in credit card perks every year

Mastering Credit Adidas Wilson, Society relies heavily on credit for most financial decisions Today good credit is not just important for getting a loan or a credit card Many businesses have to check your credit before deciding whether or not they will extend their products and services to you Mortgage lenders need to be sure that you will pay your mortgage responsibly before they can finance you Without good credit the mortgage lender concludes that giving you a loan is risky for them If they still approve regardless of

your poor credit they will charge you a very high interest rate Bad credit will see you pay a higher mortgage amount or worse your mortgage application will be declined Just because you are not currently interested in buying a house does not mean that your credit does not matter Landlords will in most cases consult your credit before renting you a house or apartment Your lease is considered a loan You require a loan to purchase a car unless you have the full amount at hand Your credit score affects the loan amount and interest rate and whether or not you will be given the loan in the first place With excellent credit you will qualify for a higher loan amount and the interest rate will be lower A poor credit score translates to limited options Not many lenders will be ready to finance you and the few that will be willing might charge a very high interest rate
