Walker, 2014-01-22 Including extensive balanced information keen insights and helpful research tools this book provides a valuable resource for students or general readers interested in American policy diplomacy and conduct during the Cold War The Cold War not only comprised the dominant theme in American foreign policy during the second half of the 20th century its influence was also imbedded into American culture The half century duration of the Cold War was an extended learning period during which the United States found that it could no longer remain an isolationist nation in a complex quickly evolving and dangerous world This book covers the entire scope of the Cold War from its background and origins before and after World War II to the collapse of the Soviet Union on December 25 1991 providing coverage of key events and concepts such as the containment policy McCarthyism the Cuban Missile Crisis the Vietnam War d tente and nuclear arms policies The single volume work also provides an annotated bibliography primary documents and biographies of key personalities during the Cold War such as John Foster Dulles J Edgar Hoover George F Kennan Henry Kissinger Edward R Murrow and Ronald Reagan *US Navy Cold War Guided Missile Cruisers* Mark Stille, 2020-02-20 Faced with an increasingly formidable anti ship cruise missile threat from the Soviet Union in the early days of the Cold War and with the recent memory of the kamikaze threat from World War II the USN placed a great priority on developing air defence cruise missiles and getting them to sea to protect the fleet The first of these missiles were sizable necessitating large ships to carry them and their sensors which resulted in the conversion of a mix of heavy and light cruisers These ships tasked with protecting carrier groups and acting as flagships entered service from 1955 and served until 1980 The cruisers served in the front lines of the Cold War and many saw combat service engaging in surface actions from Vietnam to the Persian Gulf Complementing the conventionally powered missile cruisers was a much smaller number of expensive nuclear powered cruisers including the Long Beach the USN s largest ever missile cruiser Until replaced by the Ticonderoga and Burke classes of Aegis ships the USN s 38 missile cruisers were the most capable and important surface combatants in the fleet and served all over the globe during the Cold War Using specially commissioned artwork and meticulous research this illustrated title explores the story of these cruisers in unparalleled detail revealing the history behind their development and employment [The Columbia Guide to the Cold War](#) Michael Kort, 2001-03-08 The Cold War was the longest conflict in American history and the defining event of the second half of the twentieth century Since its recent and abrupt cessation we have only begun to measure the effects of the Cold War on American Soviet post Soviet and international military strategy economics domestic policy and popular culture The Columbia Guide to the Cold War is the first in a series of guides to American history and culture that will offer a wealth of interpretive information in different formats to students scholars and general readers alike This reference contains narrative essays on key events and issues and also features an A to Z encyclopedia a concise chronology and an annotated resource section listing books articles films novels web sites and CD
