TO THE PURCHASER

Your new Chamberlain tractor has been specifically designed to meet the varied and exacting requirements of modern farming. It is versatile in its ability to match engine speed and transmission power to job requirements. It is economical in operation and dependable.

The operator's safety, ease and comfort have been the Chamberlain John Deere designers' particular concern. The safety frame has been designed and constructed to exceed the stringent requirements for tractors laid down in Australian Standard 1636-1974. The operator's compartment has blowers and a cab heater installed and, in addition, there is the option of having an air conditioning unit factory-installed. Provision is made for your dealer to fit a radio-cassette player.

The styling of the tractor is modern and strictly functional. The operator has an ease of access to lubrication and service points which makes maintenance procedures simple and rapid.

Your dealer has discussed with you the safe operation and proper care of your new tractor. He has explained the written warranty you hold, and told you of the free 100-hour service to which you are entitled. Before putting the tractor to work, this manual should be carefully studied. Thereafter, it should be kept in a handy place, convenient for quick reference.
