Lee Barnett, Michael Severe, 2016-11-09 Ministry with Youth in Crisis is a comprehensive treatment of major adolescent crises related to life themes including self identity faith formation family life social relationships sexuality suicide substance abuse and eating disorders The distinctiveness of this book is that it offers a fine blend of solid research workable theory and specific strategies for successfully ministering to and with youth in crisis Furthermore it emphasizes the caring and sensitive side of working effectively with adolescents experiencing both normal and extreme crisis situations This volume therefore is both descriptive and prescriptive in nature in that it describes the world teens live in and offers biblical responses for ministry

Encyclopedia of Christian Education George Thomas Kurian, Mark A. Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church As a result Christian education remains one of the largest and oldest continuously functioning educational systems in the world comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries In The Encyclopedia of Christian Education contributors explore the many facets of Christian education in terms of its impact on curriculum literacy teacher training outcomes and professional standards This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian

education across the globe illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy home schooling Sunday schools women s education graded schools compulsory education of the deaf and blind and kindergarten With an editorial advisory board of more than 30 distinguished scholars and five consulting editors The Encyclopedia of Christian Education contains more than 1 200 entries by 400 contributors from 75 countries These volumes covers a vast range of topics from Christian education History spanning from the church s founding through the Middle Ages to the modern day Denominational and institutional profiles Intellectual traditions in Christian education Biblical and theological frameworks curricula missions adolescent and higher education theological training and Christian pedagogy Biographies of distinguished Christian educators This work is ideal for scholars of both the history of Christianity and education as well as researchers and students of contemporary Christianity and modern religious education *Advancing Diversity, Sustainability, and Reform in Global Higher Education* Kılıç, Duygu Özen,Özkan, Metin,Turan, Selahattin,2025-09-24 Advancing diversity sustainability and reform in global higher education becomes essential in addressing the current challenges As institutions deal with issues of inequality climate change and shifting labor markets there is a growing demand for inclusive educational models that respond to a changing world Promoting diversity ensures students have equal opportunities to thrive while integrating sustainability into curricula and campus operations prepares future leaders to tackle environmental and social issues Reforming structures and practices make higher education more accessible relevant and impactful These efforts reshape the global educational landscape toward a more equitable and resilient future Advancing Diversity Sustainability and Reform in Global Higher Education explores how global higher education institutions address issues of inclusion environmental responsibility and structural reform to meet contemporary social and economic challenges It examines the strategies policies and innovations being implemented to foster diverse learning environments promote sustainability and modernize global academic systems This book covers topics such as sustainable development international students and curriculum development and is a useful resource for educators policymakers academicians researchers and scientists **Leading Beyond** Pierre Everson Cannings,2024-06-21 A common cliché states that Sunday is the most racially divided day of the week Authors have attempted to study the division in church but it continues to be a perpetual problem for Christianity The racial divide in Christianity demands continual study and research dedicated to finding answers in the history of the Bible The book of Acts provides the historical account of the early church s cultural diversity and the apostles leadership to spread the gospel all over the world in the first century Therefore it is critical to research the apostles leadership specifically Peter and Paul to the diversity of the early church following Pentecost in the book of Acts and to apply discovered leadership principles to modern day church **Thriveology** HeeKap Lee,2021-10-15 Can our students learn something positive for themselves in spite of traumatic and toxic situations Can they thrive in their cognitive emotional and social capacities to transform their painful and challenging current COVID 19

environment What do teachers need to do for this These questions guided this book to suggest a new perspective of education called the Pedagogy of Thriveology which challenges students to overcome the current toxic social environments based on the biblical perspective In fact Jesus presents many effective teaching cases in Scripture In this book I identify specific cases of audiences who experienced trauma that are related to physical emotional relational spiritual cultural ethical identity issues along with appropriate learning strategies and instructional processes that are used by Jesus so that the specific audience in each case would be equipped with resilience needed to overcome their trauma **Luke 6:40 and the Theme of Likeness Education in the New Testament** Thomas W. Hudgins,2014-01-07 What does Jesus mean when he says A disciple is not above his teacher but each disciple after being fully trained will be like his teacher Luke 6 40 This verse has been quoted cited and referenced in vast amounts of Christian education and discipleship literature Nevertheless the verse is nearly untouched in exegetical discussions with the exception of source critical analyses From this verse arises an undeveloped theme in the Gospel of Luke and the New Testament the theme of likeness education Using content analysis methodology Luke 6 40 one of the keystone passages in Christian education literature serves as the starting point for mining out the theme of likeness education in the New Testament This study consists of three concentric areas of investigation 1 Luke 6 40 and its immediate context 2 Luke Acts and 3 the New Testament corpus *Faith-Based Education That Constructs* HeeKap Lee,2010-08-09 Constructivism is everywhere It is a hot issue at this time in the field of philosophy education technology and religion However can constructivism be an alternative approach in faith based education While some conclude that Jesus knew learning was an active knowledge creating process and that he always encouraged his disciples to think deeply and go beyond the surface level others would find that constructivism undercuts faith based education because of its claims to relativity For example constructivists claim that meaning is imposed on the world by us rather than existing in the world independently from us Thus they proclaim that truth is relative to particular times places and people Christians hold that truth does exist absolutely So how can there be a way forward for faith based educators who see the good in the constructivist approach In *Faith Based Education that Constructs* readers will find a unique approach whereby constructivism may appropriately be applied to a faith based education setting Although disagreement can occur between constructivism and faith based education this book concludes that constructivist thought and Christian faith based education are in the end congruent and harmonious in significant ways Those faith based educators who continue to hold cautionary views of radical constructivist assertions against absolute truths need not disregard all other aspects of constructivism
